

Facility Gasoline Sulfur Annual Report Instructions

OMB Control No. 2060-0437 Expires 04/30/2007

Gasoline Sulfur Credit Banking & Allotment Generation Report

Report Form ID: GSF0100

Issue Date: January 25, 2001

Use Overhead ID: OH-GSF01

A facility must submit a separate Credit Banking & Allotment Generation Report for each credit type, by creation year, it possesses or possessed over a given averaging year. Also, report the generation of allotments by allotment type attributed to a specific facility. Early Allotment generation begins 2003.

No.	Field Name	Units	Field Formats, Codes, & Special Instructions
8. *	Creation Year		YYYY; Number. The year the original credits/allotments were generated.
9. *	A/C Type		AAA; Character. Allotment/Credit (A/C) Type. Enter the appropriate credit/allotment description code from the following list. AA0: original Type A allotment AB0: original Type B allotment CC0: original credit CC1: credit transferred once CC2: credit transferred twice CA0: original credit created from allotment CA1: credit from allotment transferred once CA2: credit from allotment transferred twice
10.	Starting Balance	ppm-gallons	999999999999; Number. Ending credit balance from the previous averaging period; the beginning balance.
11. *	Generated	ppm-gallons	999999999999; Number. Credits/Allotments generated during the averaging period.
12.	Used	ppm-gallons	999999999999; Number. Credits used during the averaging period.
13.	Transferred	ppm-gallons	± 999999999999; Number. Net Value of credits transferred during the reporting year. Total credits bought minus total credits sold.
14.	Converted	ppm-gallons	± 999999999999; Number. Net value of credits converted during the reporting year. Total credits converted from allotments minus total credits converted to allotments.
15.	Expired	ppm-gallons	999999999999; Number. Credits expired during the averaging period.
16.	Carryover	ppm-gallons	999999999999; Number. Credits to be carried into the next averaging period; the ending balance.

* For allotment generation, only fields 8, 9, and 11 need to be reported. All other allotment banking should be reported on the Company Allotment Banking Report (Form GSC0100).

Facility 12345 of company 1111 generates 5000 type A, and 1000 type B early allotments in the 2003 averaging period. The allotment generation would be reported as in the sample that follows (note that two reports are required due to the different allotment types).

Facility 12345

GSF0100,O,02/18/2004,2003,,1111,12345,2003,AA0,,5000,,,,,

GSF0100,O,02/18/2004,2003,,1111,12345,2003,AB0,,1000,,,,,

The allotments generated by this facility must also be reflected in the total number of allotments generated company wide on the Company Allotment Banking Report (Form GSC0100).

Paperwork Reduction Act Statement

The public reporting and recordkeeping burden for this collection of information is estimated to average 20 minutes per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
