Appendix 3: Provider Survey

Nebraska Rural Area Eligibility Determination (NeRAED) Project

"According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-XXXX. The time required to complete this information collection is estimated to average 40 minutes per response, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the collection of information. This collection of information expires XX/XX/XXXXX."

Hello, and thank you for your participation in this research study about the State of Nebraska's Child and Adult Care Food Program (CACFP), the program in which your sponsoring organization provides reimbursements to you each month for many of the meals and snacks you provide to children in your day care setting.

McFarland and Associates has been selected to study the impacts of a special program in the CACFP called the "Nebraska Rural Area Eligibility Determination Pilot", which increases the number of rural areas in Nebraska where family day care providers are eligible for higher (tier I) reimbursement rates for meals and snacks served to participating children. An important part of the study is to better understand day care providers' participation in the CACFP.

This is a research study and not an audit or review of your day care home, your CACFP sponsor or the CACFP itself. The only information that will be reported is grouped information combined from many different providers. All information that we collect will be confidential, and no individual names or other identifying information will be reported. Results from individual surveys will not be reported to your sponsor, the State of Nebraska, the Federal government, or anybody else.

Your answers to the questions below are very important to the success of the pilot and the study, and we ask your cooperation in answering the following questions. Your contribution to this study is very important and will allow us to learn more about the effectiveness of the pilot.

Thank you, again, for your participation.
