MQ315A — APPAREL

## DEFINITIONS AND SPECIAL INSTRUCTIONS

### 1. Scope of survey

This survey covers the quantity and sales of apparel cut, knit, or custom made in the United States. Headwear, accessories, trimmings, findings, hosiery, and footwear are not within the scope of this survey.

#### Who would report

Manufacturers making garments (at least cut in the U.S.) from materials they own, including custom apparel manufacturers.

Jobbers having garments made for them by U.S. contractors.

Government contractors making garments for state or federal government from government-furnished or their materials.

Non-government contractors, wholesalers, or importers should not report but indicate the nature of their operations in Part IV and return the form.

### 2. Figures to report

Report quantities cut or knit, shipments value, and fabric type, for each apparel type made.

Report only the portion of production cut or knit in the U.S. made from materials owned by your company or the government.

#### a. Shipments

The shipments value represents the net sale price f.o.b. plant, to the customer or branch to which the products are shipped, net of discounts, allowances, freight charges, and returns. Shipments to your own branches should be assigned the same value as comparable sales to unaffiliated customers, i.e., the value includes an appropriate allocation of company overhead and profit.

#### b. "9802" (formerly "807") apparel

Include apparel cut or knit in the United States which were sent abroad for sewing and then imported back into this country under the provision of item 9802 (formerly 807.00) of the Tariff Schedules of the United States.

### 3. Figures to exclude

#### a. Imported garments

Exclude finished apparel which you import unless part of "9802" apparel defined above. If records are not kept separately on the shipments of imported versus domestically made apparel, please estimate the quantity and value of the imported goods and exclude them from this report.

#### b. Resales

Products bought and resold without further manufacture should not be included in shipments. **DO NOT INCLUDE IMPORTS, EXCEPT "9802" ITEMS.**

### 4. Structure of report

For each type of apparel on the item Reference List that you manufacture or job, report the quantity cut or knit, the value of shipments, and the fabric type. Only column 1 is used.
