REPORT FOR JANUARY 2007

U.S. DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

FORM **M311J**

CURRENT INDUSTRIAL REPORTS

OILSEEDS, BEANS AND NUTS
Monthly Report of Primary Processors

The 8-digit number that appears above indicates that the Office of Management and Budget has approved this survey. If that number is not displayed, do not complete this form. **YOUR RESPONSE IS REQUIRED BY LAW** (Title 13, United States Code). By section 9 of the same law, **YOUR REPORT IS CONFIDENTIAL**. It may be seen only by persons sworn to uphold the confidentiality of Census Bureau information and may be used only for statistical purposes. The law also provides that copies retained in your files are immune from legal process.

In correspondence pertaining to this establishment's report, please refer to the 11 digit Identification Number (ID)

If you have questions regarding this report form please contact:

If all your items are not listed, please use additional lines or a blank sheet of paper.

PART II Has there been any change in the ownership or operation of this establishment during this period?

Yes - Indicate type of change below. No - Skip to Part III.

A. <input type="checkbox"/> Purchased from	Name of company	Address (Number and street, city, State, ZIP Code)	Date of change
B. <input type="checkbox"/> Sold to			
C. <input type="checkbox"/> Plant discontinued all operations	Date		
D. <input type="checkbox"/> Plant operations no longer covered by this survey - Describe in "Remarks" the products currently produced.			
E. <input type="checkbox"/> Reorganized - Describe in "Remarks;" e.g., partnership change or change in corporate status.			

PART III Do the figures shown on this report and on your last report cover the identical establishments?

Yes No - Indicate reasons for difference in "Remarks."

PART IV Remarks

PART V CERTIFICATION - This report is substantially accurate and has been prepared in accordance with instructions.

Signature of authorized official	Title	Date

CURRENT INDUSTRIAL REPORTS SERIES

2007

M311J — OILSEEDS, BEANS, AND NUTS (PRIMARY PROCESSORS) (MONTHLY REPORT)

DEFINITIONS AND SPECIAL INSTRUCTIONS

1. Scope of survey

This survey covers all establishments crushing or solvent processing vegetable oil bearing materials (oilseeds, beans, nuts, etc.), including establishments using a continuous process that immediately refines the oil.

2. Figures to be reported

Companies with more than one establishment manufacturing the products covered by this survey are requested to complete a separate report form for each location. If you have not received a separate report form for each of your establishments, please call the contact shown on the report form or write to the U.S. Census Bureau for additional forms. A separate report form is required for each crude oil mill which your company operates.

a. Materials and oil to be included on this report

Report all quantities of oil bearing materials and crude oils produced, whether for your own account or on a toll basis.

Soybean cake and meal — Report separately the cake and meal that is produced for animal feeds and the cake and meal that is further processed for edible protein products. See item codes 0111 and 0112.

Lecithin — A mixed phosphatide product obtained from the soybean oil in the degumming process should be reported in item code 0114.

Report crushings of sunflower seeds, production of crude oil and cake and meal, and stocks of seeds, crude oil, and cake and meal in item codes 0920 through 0930.

Cottonseed crushers — Report cottonseed received at your establishment, whether it is to be used in crushing or for resale, in item code 0203.

Corn grind in wet mill: Corn processed by steeping whole kernels in water to release starch.

Corn gluten meal (0906) - High protein (gluten) feed product separated in the corn wet milling process and combined with minimal quantities of starch and fibrous fraction (approximately 60 percent protein).

Corn gluten feed (0907) - Medium protein, medium energy feed product consisting of the corn bran and

condensed steepwater solubles remaining after the extraction of starch, gluten, and germ. It may include corn germ meal and other co-products of wet milling (approximately 20 percent protein).

Wet Corn gluten feed (0908) - Medium protein, medium energy feed product made by screening and pressing wet corn fiber to reduce water content. It can include steep liquor, corn germ meal, and fermentation residues (approximately 40-60 percent dry matter).

Corn germ meal (0909) - Medium protein, medium energy feed product obtained from the corn germ fraction after the corn oil has been removed (approximately 20 percent protein).

Corn and other grain grind in dry mill; including beverage alcohol distillation: Corn and other grains processed by grinding kernels into coarse flour and fermenting to convert starch to sugar, including those used in the distillation of beverage alcohol.

Distillers Dried Grain (0916) - The feed product obtained after the removal of ethanol by distillation from the yeast fermentation of a grain or a grain mixture by separating the resultant coarse grain fraction of the whole stillage and drying it by methods employed in the grain distilling industry.

Distillers Wet Grain (0914) - The feed product obtained after the removal of ethanol by distillation from the yeast fermentation of a grain or a grain mixture by separating the resultant coarse grain fraction of the whole stillage not dried.

Distillers Dried Grain with Solubles (0915) - The feed product obtained after the removal of ethanol by distillation from the yeast fermentation of a grain or grain mixture by condensing and drying at least 3/4 of the solids by the methods employed in the grain distilling industry.

Distillers Dried Solubles (0917) - The feed product obtained after the removal of ethanol by distillation from the yeast fermentation of a grain or grain mixture by drying the thin stillage fraction.

Condensed Distillers Solubles (0918) - The feed product obtained after the removal of ethanol by distillation from the yeast fermentation of a grain or grain mixture by condensing the thin stillage fraction to a semi-solid.

CURRENT INDUSTRIAL REPORTS SERIES

b. Consistency checks

This report form requests only data on receipts of cottonseeds, but not on any other seeds, beans, nuts, or kernels. However, a figure on net receipts of these raw materials can be derived by adding monthly crushings to stocks at the end of the month and subtracting stocks at the beginning of the month. In other words, receipts equal crushings plus the net change in stocks. If you maintain accurate book records on receipts of seeds, beans, etc., and derive crushings and stocks, please make certain that the net receipts figure obtainable from this report is consistent with actual receipts less shipments, if any, of seeds, beans, etc. carried on your books.

A similar balancing check should be made for shipments of crude oils and byproducts. Your reported beginning stocks plus production reported for the month, less reported month end stocks should equal shipments less consumption, if any.

If your company also refines or further processes crude vegetable oils, produces animal fats and oils, or consumes animal or vegetable oils, a report form should also be filed for each such location on Form M311N, "Monthly Report of Producers and Consumers, Animal and Vegetable Fats and Oils."

If you are not filing a Form M311N for such locations, please notify us and we will send you the necessary reports forms.

3. Definitions

The product detail for this survey, as shown in the Reference List, is defined according to standard nomenclature for this industry.

Continuous processor — If your company produces a once refined grade of oil from the crushing operation, report beans or seeds crushed, crude oil and cake and meal production. You must also report consumption of crude oil and production of refined oil on Form M311N, "Monthly Report of Producers and Consumers, Animal and Vegetable Fats and Oils."

Stocks — Stocks to be reported on this report form are for those stocks on hand at the processing location. If your company has stocks at a public or private warehouse not located at the processing location, a report should also be filed for each location on Form M311H, "Animal and Vegetable Fats and Oils (Warehouse Stocks)." If you are not filing a Form M311H for such locations, please notify us and we will send you the necessary report forms.
