FROM THE ASSOCIATE DIRECTOR
FOR ECONOMIC PROGRAMS
U.S. CENSUS BUREAU

Your 2007 Economic Census report form is enclosed.

The Economic Census is essential to business and government decision making. It is the major source of detailed information about our Nation's economy and the foundation for most measures of economic performance, including the Gross Domestic Product. Conducted every 5 years, the Economic Census uses information from businesses like yours to provide reliable data for your industry and geographic area.

Please complete and return your census form by February 12, 2008. You may use reasonable estimates if book figures are not readily available.

Title 13, United States Code, **requires your response** to the Economic Census and guarantees that your response is confidential and will be used only for statistical purposes.

Go to www.census.gov/econhelp to access on-line services, find answers to questions about the census, get tips on how to use census data, and find links to previous census results. **You can report electronically**, by downloading electronic reporting software available there.

If you cannot find an answer at our helpsite, **our customer help line** (1-800-233-6136) is available Monday to Friday, 8 a.m. to 6 p.m. Eastern time.
