

branches, the number of branch openings, closings, sales, and relocations is quite small. The current proposal allows for greater flexibility in how the schedule is filed, which should allow banks to find efficient ways to transmit the data.

One commenter requested clarification of the administrative branch type. This term was defined in the draft instructions as a branch that has limited nondeposit functions, including back office operations and check processing facilities.

Modifications to the Original Proposal

In response to comments and industry feedback, the Federal Reserve approved the following modifications to the original proposal:

- Eliminating LPOs, consumer credit offices, and administrative offices from the list of reportable branches on the FR Y-6 and FR Y-10;
- Excluding from the FR Y-10 address changes that result from changes in street names or zip codes, with no actual change in the physical location of the branch;
- Making FR Y-10 reporting of branch relocations of less than 1,000 feet optional, if the move does not involve a change of county; and
- Changing the implementation dates to December 31, 2007, for the FR Y-6 revisions and April 30, 2008, for the FR Y-10 revisions.

Final approval under OMB delegated authority the implementation of the following survey:

Report title: Central Bank Survey of Foreign Exchange and Derivatives Market Activity

Agency form number: FR 3036

OMB control number: 7100-0285

Frequency: One-time

Reporters: Financial institutions that serve as intermediaries in the wholesale foreign exchange and derivatives market and dealers.

Annual reporting hours: 3,150 hours

Estimated average hours per response: Turnover survey: 51 hours; outstandings survey: 60 hours

Number of respondents: 60

General description of report: This information collection is voluntary (12 U.S.C. 225a, 248(a)(2), 358, and 3105(c)) and is given confidential treatment (5 U.S.C. § 552(b)(4)).

Abstract: The FR 3036 is the U.S. part of a global data collection that is conducted by central banks every three years. More than fifty central banks plan to conduct the survey in 2007. The Bank for International Settlements compiles national data from each central bank to produce global market statistics.

The Federal Reserve System and other government agencies use the survey to monitor activity in the foreign exchange and derivatives markets. Respondents use the published data to gauge their market share.

Current actions: On January 11, 2007, the Federal Reserve published a notice in the Federal Register (72 FR 1325) requesting public comment for 60 days on the implementation of the FR 3036 survey. The comment period for this notice expired on March 12, 2007. The Federal Reserve received no comments on the proposed survey and will implement it as proposed.

Board of Governors of the Federal Reserve System, March 16, 2007.

Jennifer J. Johnson

Secretary of the Board

BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-07-05CO]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and send comments to Joan F. Karr, CDC Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should

be received within 60 days of this notice.

Notice of Republication of 60 day FRN Title of Project

Evaluation of the Centers for Disease Control and Prevention's Consumer Response Service Center—New—National Center for Healthcare Marketing (NCHM), Centers for Disease Control and Prevention (CDC).

Description of Republication

Due to expiration of the 60Day-05-05CO on July 21, 2005 OMB Desk Officer (John Kraemer) has requested that the 60Day-07-05CO be republished using the date of 02/15/2007, which is currently the 30Day-07-05CO publication date. Public comments will be considered until COB of April 15, 2007. We are working to put measures in place to ensure this does not happen again. The 30 day FRN will be republished at a later date.

Background and Brief Description

CDC is launching an integrated "one face to the public" approach across all communication channels to handle inquiries concerning a broad spectrum of public health topics. The overall objective is to ensure consistent, timely, reliable health information for dissemination to a variety of consumers (public, health professionals, researchers, etc.) and to address variations in inquiry volumes related to public health emergencies, news events, and dynamic, shifting public health priorities. The CDC has integrated over 40 hotlines into one Consumer Response Services Center—CDC-INFO. CDC-INFO has an exceptionally wide scope because content currently divided between over 40 hotlines handling nearly 2,000,000 telephone contacts annually will be consolidated under CDC-INFO. All CDC hotlines were consolidated in one center beginning in February 2005, with all CDC program areas transitioning into CDC-INFO through a phased approach during the next three years. CDC-INFO itself will be operational for at least the next seven years.

The primary objectives of the national evaluation are to (1) Proactively evaluate customer interactions and service effectiveness by employing assessment measures and data collection mechanisms to support performance management, gathering insights and understandings for improving service levels, and implementing effective measures to meet customer satisfaction goals; (2) develop an ongoing understanding of customer requirements and satisfaction

trends to achieve best of practice quality standards and to provide qualitative assessments, quantitative data, and cost factors to drive improvement and reinforce operational objectives; (3) measure CDC-INFO contractor service performance to assist in determining whether performance incentives have been achieved; and (4) to collect data in

order to address public concern and response to emergencies, outbreaks, and media events.

Sample size, respondent burden, and intrusiveness have been minimized to be consistent with national evaluation objectives. Procedures will be employed to safeguard the privacy and confidentiality of participants. Pilot

tests assisted in controlling burden and ensuring the user-relevance of questions. The following table shows the estimated annualized burden for data collection. There are no respondent costs other than the amount of time required to respond to the survey.

Estimated Annualized Burden Hours:

Data collection instrument	Number of respondents	Responses /respondent	Average burden per response (in hrs)	Average annual burden hours
Satisfaction survey (callers)	25,000	1	3/60	1,250
Satisfaction survey (e-mail inquiries)	330	1	3/60	17
Follow up survey	3,125	1	7/60	365
Key informant survey	100	1	7/60	12
Postcard survey for bulk mailing	950	1	1/60	16
Postcard survey for individual publications	2,100	1	1/60	35
Web survey for e-mail publication orders	1,000	1	1/60	17
Web survey for internet publications	950	1	1/60	16
Special event/Outreach survey—General Public	25,600	1	5/60	2,133
Special event/Outreach survey—Professionals	10,400	1	5/60	867
Emergency response survey—Level 1 emergency—General Public	31,151	1	5/60	2596
Emergency response survey—Level 1 emergency—Professionals	7,459	1	5/60	622
Emergency response survey—Level 2 emergency—General Public	57,579	1	5/60	4798
Emergency response survey—Level 2 emergency—Professionals	51,821	1	5/60	4318
Emergency response survey—Level 3 emergency—General Public	351,863	1	5/60	29,322
Emergency response survey—Level 3 emergency—Professional	316,678	1	5/60	26,390
Emergency response survey—Level 4 emergency—General Public	645,630	1	5/60	53,803
Emergency response survey—Level 4 emergency—Professional	596,504	1	5/60	49,709
Total Burden Hours				176,286

Dated: March 15, 2007.

Deborah Holtzman,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket Number NIOSH 101]

A Public meeting to provide input regarding the draft document, “Long-Term Field Evaluation (LTFE) Program Concept”

AGENCY: National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice of public meeting.

Meeting Date and Time: March 22, 2007, 9 a.m.–4 p.m.

Place: DoubleTree Pittsburgh Airport Hotel, 8402 University Blvd., Moon Township, PA 15108.

SUMMARY: The National Institute for Occupational Safety and Health

(NIOSH) announces the availability of opportunity for the public to provide input regarding the draft document, “Long-Term Field Evaluation (LTFE) Program Concept.” The public meeting will be held on March 22, 2007 at the DoubleTree Pittsburgh Airport Hotel, 8402 University Blvd., Moon Township, PA 15108.

NIOSH is the Federal agency responsible for conducting research and making recommendations for the approval for self-contained, self-rescuer (SCSR) closed circuit escape respirators, Title 42, Code of Federal Regulations (CFR), Part 84. The LTFE program for self-contained self-rescuers (SCSRs) for miners was initiated more than 20 years ago by the U.S. Bureau of Mines. The objective for the LTFE program is to obtain data to determine the expected performance characteristics of SCSRs used in the mining industry. LTFE program results based on scientific principles can provide useful information to monitor expected SCSR performance and assess possible degradation due to the physical stresses of in-mine use. Of utmost concern is the successful performance of any SCSR that passes its inspection criteria specified by the manufacturer. It is such an apparatus that must be relied upon in an emergency.

A copy of the draft document can be found at: <http://www.cdc.gov/niosh/review/public/NPPTL-LTFE/>.

ADDRESSES: Comments should be submitted to the NIOSH Docket Office, Robert A. Taft Laboratories, 4676 Columbia Parkway. M/S C-34, Cincinnati, OH 45226, telephone 513/533-8450, fax 513/533-8285. Comments may also be submitted directly at <http://www.cdc.gov/niosh/review/public/NPPTL-LTFE/>.

The document will remain available for comment until April 5, 2007. Comments should reference docket number NIOSH-101 in the subject heading.

All information received in response to this notice will be available for public examination and copying at the NIOSH Docket Office, Room 111, 4676 Columbia Parkway, Cincinnati, Ohio 45226.

Contact Person for Technical Information: Les Boord, NIOSH Director for National Personal Protective Technology Laboratory, 626 Cochran Mill Road, P.O. Box 18070, Pittsburgh, PA 15236.
