Why is BJS conducting this survey?

Every 3 to 4 years, as part of its Law Enforcement Management and Administrative Statistics (LEMAS) program, the Bureau of Justice Statistics sends a survey questionnaire to about 3,000 State and local law enforcement agencies across the country. The data we collect are used to generate national statistics describing law enforcement personnel, equipment, policies and procedures.

This survey is presently the only source of detailed national statistics about law enforcement agency operations. These statistics are used by police chiefs, sheriffs, legislators, planners, researchers, and others to identify resource needs, trends, and priorities in law enforcement. Individual agencies can compare themselves to the national figures and trends.

What do I need to do?

Complete the survey online if possible. Just go to the following web address for further detail: [enter web location here]

If it is more convenient for you, return it by fax (202-555-5555) or by mail to:
