

1205-0436 Note to Reviewer 2/ 20/ 07

To date, three surveys have been submitted for review and received approval by OMB. The availability of this quick turnaround mechanism has generated significant activity within ETA as knowledge of its availability as a resource and its possible uses has expanded. Some survey efforts could not avail themselves of the mechanism because of failing to meet one of the conditions. Specifically, a proposed survey of the extent to which Workforce Investment Boards subcontracted with community and faith-based organizations exceeded the 250 respondent limit. ETA anticipates that, as knowledge about this survey tool spreads more widely, demand for its use will increase significantly.
