The Non-Performance Tracking status is assigned to a school in conjunction with a start date and end date (Non-Performance Tracking Effective Date and Non-Performance Tracking End Date). When this status is active on a school during the date range of the effective and end dates, any drawdown transactions occurring for that school will be assigned a special flag that will prevent those drawdown transactions from being counted against a school when the number of days in the strong reporting option are assigned for the next award year. Once the date range has passed, any new drawdown transactions will be counted in the logic for the school when the number of days in the strong reporting option are assigned for the next award year. FSA can assign this status to a school from the COD website. The Start/End Dates are updated manually when a school is placed in a Non-Performance Tracking status. Additionally, the status field itself has three reason codes associated with it. These reason codes will assist FSA in identifying why a school was assigned the status. The reasons for Non-Performance Tracking status assignment are:

- Natural Disaster is denoted by a value of 'ND'.
- School System Problems is denoted by a value of 'SP'.
- Other reasons determined by SFA will be denoted by an 'OT'.

The screenshot shows a web browser window with the address bar containing 'C:\cod\HelpTextAwardDetailInfoExisting.htm'. The page content includes the U.S. Department of Education logo and the text 'U.S. DEPARTMENT OF EDUCATION COMMON ORIGINATION & DISBURSEMENT'. To the right is the 'FSA FEDERAL STUDENT AID' logo and a 'Close Window' button. Below this is the section 'Award Detail Information page' with an introductory paragraph. The main content is a table titled 'Page Field Information' with two columns: 'Field' and 'Description'.

Field	Description
Award Amount Approved	Displays approved amount of student award.
Scheduled Award Amount	A primary concept in the Federal Pell Grant Program is the Scheduled Pell Grant or Scheduled Award. The Student Financial Aid Handbook uses the term 'Scheduled Award'. The concept of the Scheduled Pell Grant has always been important because it limits the student to a maximum payment for an award year. It assumes that the student is enrolled full time for a full academic year and the calculated amount is based upon a given Cost of Attendance and Expected Family Contribution. If a student does not complete an academic year, in both weeks of instructional time and hours, he or she will receive less than a full Scheduled Pell Grant. The student's Scheduled Pell Grant cannot be exceeded, even if transferring to another school or if attending multiple terms and sessions during the award year. For example, the total Federal Pell Awards for a full time student attending fall term, spring term, and a summer session cannot exceed the scheduled award.
Award Amount Disbursed	Displays actual disbursed award amount
CPS Transaction Number	Transaction number comes from the eligible SAR used to calculate an award by central process system (CPS).
Low Tuition and Fees Code	A flag to identify tuition ranges when the annual tuition is less than or equal to minimum defined by low tuition and fees table.
Enrollment Date	Displays student's start date of enrollment. Dependent on school's academic calendar.
Cost of Attendance	Cost of attendance is used to determine the student's scheduled Pell Grant award and is always based on the cost for a full time student for an entire academic year. It must be greater than 0000. These costs can consist of: <ul style="list-style-type: none"> • Tuition and fees • Allowances for room and board • Allowance for books, supplies, transportation, and miscellaneous personal expenses • Allowances established by the school for dependent care, disability-related expenses, study abroad, and employment expenses related to cooperative education programs • Special exceptions to which cost components apply, including less than half-time students, correspondence study students, incarcerated students, and students receiving instruction by telecommunications • Cost of computer allowance
EFC	When you apply for federal student aid, the information you report is used in a formula established by the U.S. Congress. The formula determines your expected family contribution (EFC), an amount you and your family are expected to contribute toward your education (although this amount may not exactly match the amount you and your family end up contributing). If your EFC is below a certain amount, you'll be eligible for a Federal Pell Grant, assuming that you meet all other eligibility requirements.
