DEFINITION OF ORGANICALLY PRODUCED GRAPES

For the purpose of administering the Marketing Order for California Desert Grapes, organically produced grapes have been defined as those grapes produced and handled in accordance with the National Organic Program standards and labeled as "organic" or "100 percent organic" grapes.

INSPECTION REQUIREMENTS

The Federal-State Fruit and Vegetable Inspection Service located in Coachella, California, has been designated by the Committee as the official shipping point inspection agency. All organically produced grapes must be inspected by the agency prior to shipment for market and are required to meet a "U. S. NO. 1, TABLE GRAPE STANDARD", (except for size). The handler is required to deliver the grapes to the shipping point agency for inspections, or make arrangements for other inspection locations.

CONTAINER REQUIREMENTS

All grape shipments must be made in NEW UNUSED BOXES or RPCs and labeled in accordance with national organics program regulations.

I certify that the above report is true and correct to the best of my knowledge and that I will abide by all regulations issued by the Committee in the harvest of my organically produced grapes.
