

Justification for No material/Non-substantive Change  
#0584-0474, National Hunger Clearinghouse Database Form  
USDA/FNS

The revised database form, FNS-543, is more comprehensive and allows ease of reading. Basic form information remains the same; however categories were renamed and readjusted for ease of reading.

The revised form asks respondents if they wish to receive the World Hunger Year newsletter by fax or e-mail and five Yes/No questions were added to end to gain additional information.

There is no change to the current number of respondents and the burden associated with this collection due to these changes.
