

Protection of Archeological Resources (43 CFR 7)

[CITE: 43CFR7]

[Page 169-185]

TITLE 43--PUBLIC LANDS: INTERIOR

Subtitle A--Office of the Secretary of the Interior

PART 7--PROTECTION OF ARCHAEOLOGICAL RESOURCES

Subpart A--Uniform Regulations

Sec.

- 7.1 Purpose.
- 7.2 Authority.
- 7.3 Definitions.
- 7.4 Prohibited acts and criminal penalties.
- 7.5 Permit requirements and exceptions.
- 7.6 Application for permits and information collection.
- 7.7 Notification to Indian tribes of possible harm to, or destruction of, sites on public lands having religious or cultural importance.
- 7.8 Issuance of permits.
- 7.9 Terms and conditions of permits.
- 7.10 Suspension and revocation of permits.
- 7.11 Appeals relating to permits.
- 7.12 Relationship to section 106 of the National Historic Preservation Act.
- 7.13 Custody of archaeological resources.
- 7.14 Determination of archaeological or commercial value and cost of restoration and repair.
- 7.15 Assessment of civil penalties.
- 7.16 Civil penalty amounts.
- 7.17 Other penalties and rewards.
- 7.18 Confidentiality of archaeological resource information.
- 7.19 Report.
- 7.20 Public awareness programs.
- 7.21 Surveys and schedules.

Subpart B--Department of the Interior Supplemental Regulations

- 7.31 Scope and authority.
- 7.32 Supplemental definitions.
- 7.33 Determination of loss or absence of archaeological interest.
- 7.34 Procedural information for securing permits.
- 7.35 Permitting procedures for Indian lands.
- 7.36 Permit reviews and disputes.
- 7.37 Civil penalty hearings procedures.

Authority: Pub. L. 96-95, 93 Stat. 721, as amended; 102 Stat. 2983 (16 U.S.C. 470aa-mm) (Sec. 10(a). Related authority: Pub. L. 59-209, 34 Stat. 225 (16 U.S.C. 432,433); Pub. L. 86-523; 74 Stat. 220, 221 (16 U.S.C. 469), as amended; 88 Stat. 174 (1974); Pub. L. 89-665, 80 Stat. 915 (16 U.S.C. 470a-t), as amended, 84 Stat. 204 (1970), 87 Stat. 139 (1973), 90 Stat. 1320 (1976), 92 Stat. 3467 (1978), 94 Stat. 2987 (1980); Pub. L. 95-341, 92 Stat. 469 (42 U.S.C. 1996).

Subpart A--Uniform Regulations

Source: 49 FR 1027, Jan. 6, 1984, unless otherwise noted.

Sec. 7.1 Purpose.

(a) The regulations in this part implement provisions of the Archaeological Resources Protection Act of 1979, as amended (16 U.S.C. 470aa-mm) by establishing the uniform definitions, standards, and procedures to be followed by all Federal land managers in providing protection for archaeological resources, located on public lands and Indian lands of the United States. These regulations enable Federal land managers to protect archaeological resources, taking into consideration provisions of the American Indian Religious Freedom Act (92 Stat. 469; 42 U.S.C. 1996), through permits authorizing excavation and/or removal of archaeological resources, through civil penalties for unauthorized excavation and/or removal, through provisions for the preservation of archaeological resource collections and data, and through provisions for ensuring confidentiality of information about archaeological resources when disclosure would threaten the archaeological resources.

(b) The regulations in this part do not impose any new restrictions on activities permitted under other laws, authorities, and regulations relating to mining, mineral leasing, reclamation, and other multiple uses of the public lands.
[49 FR 1027, Jan. 6, 1984, as amended at 60 FR 5260, Jan. 26, 1995]

Sec. 7.2 Authority.

(a) The regulations in this part are promulgated pursuant to section 10(a) of the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470ii), which requires that the Secretaries of the Interior, Agriculture and Defense

[[Page 170]]

and the Chairman of the Board of the Tennessee Valley Authority jointly develop uniform rules and regulations for carrying out the purposes of the Act.

(b) In addition to the regulations in this part, section 10(b) of the Act (16 U.S.C. 470ii) provides that each Federal land manager shall promulgate such rules and regulations, consistent with the uniform rules and regulations in this part, as may be necessary for carrying out the purposes of the Act.

Sec. 7.3 Definitions.

As used for purposes of this part:

(a) Archaeological resource means any material remains of human life or activities which are at least 100 years of age, and which are of archaeological interest.

(1) Of archaeological interest means capable of providing scientific or humanistic understandings of past human behavior, cultural adaptation, and related topics through the application of scientific or scholarly techniques such as controlled observation, contextual measurement, controlled collection, analysis, interpretation and explanation.

(2) Material remains means physical evidence of human habitation, occupation, use, or activity, including the site, location, or context in which such evidence is situated.

(3) The following classes of material remains (and illustrative examples), if they are at least 100 years of age, are of archaeological interest and shall be considered archaeological resources unless determined otherwise pursuant to paragraph (a)(4) or (a)(5) of this section:

(i) Surface or subsurface structures, shelters, facilities, or features (including, but not limited to, domestic structures, storage structures, cooking structures, ceremonial structures, artificial mounds, earthworks, fortifications, canals, reservoirs, horticultural/agricultural gardens or fields, bedrock mortars or grinding surfaces,

rock alignments, cairns, trails, borrow pits, cooking pits, refuse pits, burial pits or graves, hearths, kilns, post molds, wall trenches, middens);

(ii) Surface or subsurface artifact concentrations or scatters;

(iii) Whole or fragmentary tools, implements, containers, weapons and weapon projectiles, clothing, and ornaments (including, but not limited to, pottery and other ceramics, cordage, basketry and other weaving, bottles and other glassware, bone, ivory, shell, metal, wood, hide, feathers, pigments, and flaked, ground, or pecked stone);

(iv) By-products, waste products, or debris resulting from manufacture or use of human-made or natural materials;

(v) Organic waste (including, but not limited to, vegetal and animal remains, coprolites);

(vi) Human remains (including, but not limited to, bone, teeth, mummified flesh, burials, cremations);

(vii) Rock carvings, rock paintings, intaglios and other works of artistic or symbolic representation;

(viii) Rockshelters and caves or portions thereof containing any of the above material remains;

(ix) All portions of shipwrecks (including, but not limited to, armaments, apparel, tackle, cargo);

(x) Any portion or piece of any of the foregoing.

(4) The following material remains shall not be considered of archaeological interest, and shall not be considered to be archaeological resources for purposes of the Act and this part, unless found in a direct physical relationship with archaeological resources as defined in this section:

(i) Paleontological remains;

(ii) Coins, bullets, and unworked minerals and rocks.

(5) The Federal land manager may determine that certain material remains, in specified areas under the Federal land manager's jurisdiction, and under specified circumstances, are not or are no longer of archaeological interest and are not to be considered archaeological resources under this part. Any determination made pursuant to this subparagraph shall be documented. Such determination shall in no way affect the Federal land manager's obligations under other applicable laws or regulations.

(6) For the disposition following lawful removal or excavations of Native American human remains and "cultural items", as defined by the Native

[[Page 171]]

American Graves Protection and Repatriation Act (NAGPRA; Pub. L. 101-601; 104 Stat. 3050; 25 U.S.C. 3001-13), the Federal land manager is referred to NAGPRA and its implementing regulations.

(b) Arrowhead means any projectile point which appears to have been designed for use with an arrow.

(c) Federal land manager means:

(1) With respect to any public lands, the secretary of the department, or the head of any other agency or instrumentality of the United States, having primary management authority over such lands, including persons to whom such management authority has been officially delegated;

(2) In the case of Indian lands, or any public lands with respect to which no department, agency or instrumentality has primary management authority, such term means the Secretary of the Interior;

(3) The Secretary of the Interior, when the head of any other agency or instrumentality has, pursuant to section 3(2) of the Act and with the consent of the Secretary of the Interior, delegated to the Secretary of the Interior the responsibilities (in whole or in part) in this part.

(d) Public lands means:

(1) Lands which are owned and administered by the United States as part of the national park system, the national wildlife refuge system,

or the national forest system; and

(2) All other lands the fee title to which is held by the United States, except lands on the Outer Continental Shelf, lands under the jurisdiction of the Smithsonian Institution, and Indian lands.

(e) Indian lands means lands of Indian tribes, or Indian individuals, which are either held in trust by the United States or subject to a restriction against alienation imposed by the United States, except for subsurface interests not owned or controlled by an Indian tribe or Indian individual.

(f) Indian tribe as defined in the Act means any Indian tribe, band, nation, or other organized group or community, including any Alaska village or regional or village corporation as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (85 Stat. 688). In order to clarify this statutory definition for purposes of this part, ``Indian tribe'' means:

(1) Any tribal entity which is included in the annual list of recognized tribes published in the Federal Register by the Secretary of the Interior pursuant to 25 CFR part 54;

(2) Any other tribal entity acknowledged by the Secretary of the Interior pursuant to 25 CFR part 54 since the most recent publication of the annual list; and

(3) Any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688), and any Alaska Native village or tribe which is recognized by the Secretary of the Interior as eligible for services provided by the Bureau of Indian Affairs.

(g) Person means an individual, corporation, partnership, trust, institution, association, or any other private entity, or any officer, employee, agent, department, or instrumentality of the United States, or of any Indian tribe, or of any State or political subdivision thereof.

(h) State means any of the fifty states, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.

(i) Act means the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470aa-mm).

[49 FR 1027, Jan. 6, 1984; 49 FR 5923, Feb. 16, 1984, as amended at 60 FR 5260, Jan. 26, 1995]

Sec. 7.4 Prohibited acts and criminal penalties.

(a) Under section 6(a) of the Act, no person may excavate, remove, damage, or otherwise alter or deface, or attempt to excavate, remove, damage, or otherwise alter or deface any archaeological resource located on public lands or Indian lands unless such activity is pursuant to a permit issued under Sec. 7.8 or exempted by Sec. 7.5(b) of this part.

(b) No person may sell, purchase, exchange, transport, or receive any archaeological resource, if such resource was excavated or removed in violation of:

(1) The prohibitions contained in paragraph (a) of this section; or

[[Page 172]]

(2) Any provision, rule, regulation, ordinance, or permit in effect under any other provision of Federal law.

(c) Under section (d) of the Act, any person who knowingly violates or counsels, procures, solicits, or employs any other person to violate any prohibition contained in section 6 (a), (b), or (c) of the Act will, upon conviction, be fined not more than \$10,000.00 or imprisoned not more than one year, or both: provided, however, that if the commercial or archaeological value of the archaeological resources involved and the cost of restoration and repair of such resources exceeds the sum of \$500.00, such person will be fined not more than \$20,000.00 or imprisoned not more than two years, or both. In the case of a second or subsequent such violation upon conviction such person will be fined not more than \$100,000.00, or imprisoned not more than five years, or both.

Sec. 7.5 Permit requirements and exceptions.

(a) Any person proposing to excavate and/or remove archaeological resources from public lands or Indian lands, and to carry out activities associated with such excavation and/or removal, shall apply to the Federal land manager for a permit for the proposed work, and shall not begin the proposed work until a permit has been issued. The Federal land manager may issue a permit to any qualified person, subject to appropriate terms and conditions, provided that the person applying for a permit meets conditions in Sec. 7.8(a) of this part.

(b) Exceptions:

(1) No permit shall be required under this part for any person conducting activities on the public lands under other permits, leases, licenses, or entitlements for use, when those activities are exclusively for purposes other than the excavation and/or removal of archaeological resources, even though those activities might incidentally result in the disturbance of archaeological resources. General earth-moving excavation conducted under a permit or other authorization shall not be construed to mean excavation and/or removal as used in this part. This exception does not, however, affect the Federal land manager's responsibility to comply with other authorities which protect archaeological resources prior to approving permits, leases, licenses, or entitlements for use; any excavation and/or removal of archaeological resources required for compliance with those authorities shall be conducted in accordance with the permit requirements of this part.

(2) No permit shall be required under this part for any person collecting for private purposes any rock, coin, bullet, or mineral which is not an archaeological resource as defined in this part, provided that such collecting does not result in disturbance of any archaeological resource.

(3) No permit shall be required under this part or under section 3 of the Act of June 8, 1906 (16 U.S.C. 432), for the excavation or removal by any Indian tribe or member thereof of any archaeological resource located on Indian lands of such Indian tribe, except that in the absence of tribal law regulating the excavation or removal of archaeological resources on Indian lands, an individual tribal member shall be required to obtain a permit under this part;

(4) No permit shall be required under this part for any person to carry out any archaeological activity authorized by a permit issued under section 3 of the Act of June 8, 1906 (16 U.S.C. 432), before the enactment of the Archaeological Resources Protection Act of 1979. Such permit shall remain in effect according to its terms and conditions until expiration.

(5) No permit shall be required under section 3 of the Act of June 8, 1906 (16 U.S.C. 432) for any archaeological work for which a permit is issued under this part.

(c) Persons carrying out official agency duties under the Federal land manager's direction, associated with the management of archaeological resources, need not follow the permit application procedures of Sec. 7.6. However, the Federal land manager shall insure that provisions of Secs. 7.8 and 7.9 have been met by other documented means, and that any official duties which might result in harm to or destruction

[[Page 173]]

of any Indian tribal religious or cultural site, as determined by the Federal land manager, have been the subject of consideration under Sec. 7.7.

(d) Upon the written request of the Governor of any State, on behalf of the State or its educational institutions, the Federal land manager shall issue a permit, subject to the provisions of Secs. 7.5(b)(5), 7.7,

7.8(a) (3), (4), (5), (6), and (7), 7.9, 7.10, 7.12, and 7.13(a) to such Governor or to such designee as the Governor deems qualified to carry out the intent of the Act, for purposes of conducting archaeological research, excavating and/or removing archaeological resources, and safeguarding and preserving any materials and data collected in a university, museum, or other scientific or educational institution approved by the Federal land manager.

(e) Under other statutory, regulatory, or administrative authorities governing the use of public lands and Indian lands, authorizations may be required for activities which do not require a permit under this part. Any person wishing to conduct on public lands or Indian lands any activities related to but believed to fall outside the scope of this part should consult with the Federal land manager, for the purpose of determining whether any authorization is required, prior to beginning such activities.

Sec. 7.6 Application for permits and information collection.

(a) Any person may apply to the appropriate Federal land manager for a permit to excavate and/or remove archaeological resources from public lands or Indian lands and to carry out activities associated with such excavation and/or removal.

(b) Each application for a permit shall include:

(1) The nature and extent of the work proposed, including how and why it is proposed to be conducted, proposed time of performance, locational maps, and proposed outlet for public written dissemination of the results.

(2) The name and address of the individual(s) proposed to be responsible for conducting the work, institutional affiliation, if any, and evidence of education, training, and experience in accord with the minimal qualifications listed in Sec. 7.8(a).

(3) The name and address of the individual(s), if different from the individual(s) named in paragraph (b)(2) of this section, proposed to be responsible for carrying out the terms and conditions of the permit.

(4) Evidence of the applicant's ability to initiate, conduct, and complete the proposed work, including evidence of logistical support and laboratory facilities.

(5) Where the application is for the excavation and/or removal of archaeological resources on public lands, the names of the university, museum, or other scientific or educational institution in which the applicant proposes to store all collections, and copies of records, data, photographs, and other documents derived from the proposed work. Applicants shall submit written certification, signed by an authorized official of the institution, of willingness to assume curatorial responsibility for the collections, records, data, photographs and other documents and to safeguard and preserve these materials as property of the United States.

(6) Where the application is for the excavation and/or removal of archaeological resources on Indian lands, the name of the university, museum, or other scientific or educational institution in which the applicant proposes to store copies of records, data, photographs, and other documents derived from the proposed work, and all collections in the event the Indian owners do not wish to take custody or otherwise dispose of the archaeological resources. Applicants shall submit written certification, signed by an authorized official of the institution, or willingness to assume curatorial responsibility for the collections, if applicable, and/or the records, data, photographs, and other documents derived from the proposed work.

(c) The Federal land manager may require additional information, pertinent to land management responsibilities, to be included in the application for permit and shall so inform the applicant.

(d) Paperwork Reduction Act. The information collection requirement contained in Sec. 7.6 of these regulations has

been approved by the Office of Management and Budget under 44 U.S.C. 3501 et seq. and assigned clearance number 1024-0037. The purpose of the information collection is to meet statutory and administrative requirements in the public interest. The information will be used to assist Federal land managers in determining that applicants for permits are qualified, that the work proposed would further archaeological knowledge, that archaeological resources and associated records and data will be properly preserved, and that the permitted activity would not conflict with the management of the public lands involved. Response to the information requirement is necessary in order for an applicant to obtain a benefit.

Sec. 7.7 Notification to Indian tribes of possible harm to, or destruction of, sites on public lands having religious or cultural importance.

(a) If the issuance of a permit under this part may result in harm to, or destruction of, any Indian tribal religious or cultural site on public lands, as determined by the Federal land manager, at least 30 days before issuing such a permit the Federal land manager shall notify any Indian tribe which may consider the site as having religious or cultural importance. Such notice shall not be deemed a disclosure to the public for purposes of section 9 of the Act.

(1) Notice by the Federal land manager to any Indian tribe shall be sent to the chief executive officer or other designated official of the tribe. Indian tribes are encouraged to designate a tribal official to be the focal point for any notification and discussion between the tribe and the Federal land manager.

(2) The Federal land manager may provide notice to any other Native American group that is known by the Federal land manager to consider sites potentially affected as being of religious or cultural importance.

(3) Upon request during the 30-day period, the Federal land manager may meet with official representatives of any Indian tribe or group to discuss their interests, including ways to avoid or mitigate potential harm or destruction such as excluding sites from the permit area. Any mitigation measures which are adopted shall be incorporated into the terms and conditions of the permit under Sec. 7.9.

(4) When the Federal land manager determines that a permit applied for under this part must be issued immediately because of an imminent threat of loss or destruction of an archaeological resource, the Federal land manager shall so notify the appropriate tribe.

(b)(1) In order to identify sites of religious or cultural importance, the Federal land manager shall seek to identify all Indian tribes having aboriginal or historic ties to the lands under the Federal land manager's jurisdiction and seek to determine, from the chief executive officer or other designated official of any such tribe, the location and nature of specific sites of religious or cultural importance so that such information may be on file for land management purposes. Information on sites eligible for or included in the National Register of Historic Places may be withheld from public disclosure pursuant to section 304 of the Act of October 15, 1966, as amended (16 U.S.C. 470w-3).

(2) If the Federal land manager becomes aware of a Native American group that is not an Indian tribe as defined in this part but has aboriginal or historic ties to public lands under the Federal land manager's jurisdiction, the Federal land manager may seek to communicate with official representatives of that group to obtain information on sites they may consider to be of religious or cultural importance.

(3) The Federal land manager may enter into agreement with any Indian tribe or other Native American group for determining locations for which such tribe or group wishes to receive notice under this section.

(4) The Federal land manager should also seek to determine, in consultation with official representatives of Indian tribes or other Native American groups, what circumstances should be the subject of special notification to the tribe or group after a permit has been issued. Circumstances calling for notification might include the discovery of human remains. When circumstances for special notification have been determined by the Federal

[[Page 175]]

land manager, the Federal land manager will include a requirement in the terms and conditions of permits, under Sec. 7.9(c), for permittees to notify the Federal land manager immediately upon the occurrence of such circumstances. Following the permittee's notification, the Federal land manager will notify and consult with the tribe or group as appropriate. In cases involving Native American human remains and other "cultural items", as defined by NAGPRA, the Federal land manager is referred to NAGPRA and its implementing regulations. [49 FR 1027, Jan. 6, 1984, as amended at 60 FR 5260, 5261, Jan. 26, 1995]

Sec. 7.8 Issuance of permits.

(a) The Federal land manager may issue a permit, for a specified period of time appropriate to the work to be conducted, upon determining that:

(1) The applicant is appropriately qualified, as evidenced by training, education, and/or experience, and possesses demonstrable competence in archaeological theory and methods, and in collecting, handling, analyzing, evaluating, and reporting archaeological data, relative to the type and scope of the work proposed, and also meets the following minimum qualifications:

(i) A graduate degree in anthropology or archaeology, or equivalent training and experience;

(ii) The demonstrated ability to plan, equip, staff, organize, and supervise activity of the type and scope proposed;

(iii) The demonstrated ability to carry research to completion, as evidenced by timely completion of theses, research reports, or similar documents;

(iv) Completion of at least 16 months of professional experience and/or specialized training in archaeological field, laboratory, or library research, administration, or management, including at least 4 months experience and/or specialized training in the kind of activity the individual proposes to conduct under authority of a permit; and

(v) Applicants proposing to engage in historical archaeology should have had at least one year of experience in research concerning archaeological resources of the historic period. Applicants proposing to engage in prehistoric archaeology should have had at least one year of experience in research concerning archaeological resources of the prehistoric period.

(2) The proposed work is to be undertaken for the purpose of furthering archaeological knowledge in the public interest, which may include but need not be limited to, scientific or scholarly research, and preservation of archaeological data;

(3) The proposed work, including time, scope, location, and purpose, is not inconsistent with any management plan or established policy, objectives, or requirements applicable to the management of the public lands concerned;

(4) Where the proposed work consists of archaeological survey and/or data recovery undertaken in accordance with other approved uses of the public lands or Indian lands, and the proposed work has been agreed to in writing by the Federal land manager pursuant to section 106 of the National Historic Preservation Act (16 U.S.C. 470f), paragraphs (a)(2) and (a)(3) shall be deemed satisfied by the prior approval.

(5) Written consent has been obtained, for work proposed on Indian lands, from the Indian landowner and the Indian tribe having jurisdiction over such lands;

(6) Evidence is submitted to the Federal land manager that any university, museum, or other scientific or educational institution proposed in the application as the repository possesses adequate curatorial capability for safeguarding and preserving the archaeological resources and all associated records; and

(7) The applicant has certified that, not later than 90 days after the date the final report is submitted to the Federal land manager, the following will be delivered to the appropriate official of the approved university, museum, or other scientific or educational institution, which shall be named in the permit:

(i) All artifacts, samples, collections, and copies of records, data, photographs, and other documents resulting from work conducted under the requested permit where the permit is for the excavation and/or removal of archaeological resources from public lands.

[[Page 176]]

(ii) All artifacts, samples and collections resulting from work under the requested permit for which the custody or disposition is not undertaken by the Indian owners, and copies of records, data, photographs, and other documents resulting from work conducted under the requested permit, where the permit is for the excavation and/or removal of archaeological resources from Indian lands.

(b) When the area of the proposed work would cross jurisdictional boundaries, so that permit applications must be submitted to more than one Federal land manager, the Federal land managers shall coordinate the review and evaluation of applications and the issuance of permits.
[49 FR 1027, Jan. 6, 1984; 49 FR 5923, Feb. 16, 1984]

Sec. 7.9 Terms and conditions of permits.

(a) In all permits issued, the Federal land manager shall specify:

(1) The nature and extent of work allowed and required under the permit, including the time, duration, scope, location, and purpose of the work;

(2) The name of the individual(s) responsible for conducting the work and, if different, the name of the individual(s) responsible for carrying out the terms and conditions of the permit;

(3) The name of any university, museum, or other scientific or educational institutions in which any collected materials and data shall be deposited; and

(4) Reporting requirements.

(b) The Federal land manager may specify such terms and conditions as deemed necessary, consistent with this part, to protect public safety and other values and/or resources, to secure work areas, to safeguard other legitimate land uses, and to limit activities incidental to work authorized under a permit.

(c) The Federal land manager shall include in permits issued for archaeological work on Indian lands such terms and conditions as may be requested by the Indian landowner and the Indian tribe having jurisdiction over the lands, and for archaeological work on public lands shall include such terms and conditions as may have been developed pursuant to Sec. 7.7.

(d) Initiation of work or other activities under the authority of a permit signifies the permittee's acceptance of the terms and conditions of the permit.

(e) The permittee shall not be released from requirements of a permit until all outstanding obligations have been satisfied, whether or not the term of the permit has expired.

(f) The permittee may request that the Federal land manager extend or modify a permit.

(g) The permittee's performance under any permit issued for a period greater than 1 year shall be subject to review by the Federal land manager, at least annually.

Sec. 7.10 Suspension and revocation of permits.

(a) Suspension or revocation for cause. (1) The Federal land manager may suspend a permit issued pursuant to this part upon determining that the permittee has failed to meet any of the terms and conditions of the permit or has violated any prohibition of the Act or Sec. 7.4. The Federal land manager shall provide written notice to the permittee of the suspension, the cause thereof, and the requirements which must be met before the suspension will be removed.

(2) The Federal land manager may revoke a permit upon assessment of a civil penalty under Sec. 7.15 upon the permittee's conviction under section 6 of the Act, or upon determining that the permittee has failed after notice under this section to correct the situation which led to suspension of the permit.

(b) Suspension or revocation for management purposes. The Federal land manager may suspend or revoke a permit, without liability to the United States, its agents, or employees, when continuation of work under the permit would be in conflict with management requirements not in effect when the permit was issued. The Federal land manager shall provide written notice to the permittee stating the nature of and basis for the suspension or revocation.

[49 FR 1027, Jan. 6, 1984; 49 FR 5923, Feb. 16, 1984]

[[Page 177]]

Sec. 7.11 Appeals relating to permits.

Any affected person may appeal permit issuance, denial of permit issuance, suspension, revocation, and terms and conditions of a permit through existing administrative appeal procedures, or through procedures which may be established by the Federal land manager pursuant to section 10(b) of the Act and this part.

Sec. 7.12 Relationship to section 106 of the National Historic Preservation Act.

Issuance of a permit in accordance with the Act and this part does not constitute an undertaking requiring compliance with section 106 of the Act of October 15, 1966 (16 U.S.C. 470f). However, the mere issuance of such a permit does not excuse the Federal land manager from compliance with section 106 where otherwise required.

Sec. 7.13 Custody of archaeological resources.

(a) Archaeological resources excavated or removed from the public lands remain the property of the United States.

(b) Archaeological resources excavated or removed from Indian lands remain the property of the Indian or Indian tribe having rights of ownership over such resources.

(c) The Secretary of the Interior may promulgate regulations providing for the exchange of archaeological resources among suitable universities, museums, or other scientific or educational institutions, for the ultimate disposition of archaeological resources, and for standards by which archaeological resources shall be preserved and maintained, when such resources have been excavated or removed from public lands and Indian lands.

(d) In the absence of regulations referenced in paragraph (c) of this section, the Federal land manager may provide for the exchange of archaeological resources among suitable universities, museums, or other scientific or educational institutions, when such resources have been

excavated or removed from public lands under the authority of a permit issued by the Federal land manager.

(e) Notwithstanding the provisions of paragraphs (a) through (d) of this section, the Federal land manager will follow the procedures required by NAGPRA and its implementing regulations for determining the disposition of Native American human remains and other "cultural items", as defined by NAGPRA, that have been excavated, removed, or discovered on public lands.

[49 FR 1027, Jan. 6, 1984, as amended at 60 FR 5260, 5261, Jan. 26, 1995]

Sec. 7.14 Determination of archaeological or commercial value and cost of restoration and repair.

(a) Archaeological value. For purposes of this part, the archaeological value of any archaeological resource involved in a violation of the prohibitions in Sec. 7.4 of this part or conditions of a permit issued pursuant to this part shall be the value of the information associated with the archaeological resource. This value shall be appraised in terms of the costs of the retrieval of the scientific information which would have been obtainable prior to the violation. These costs may include, but need not be limited to, the cost of preparing a research design, conducting field work, carrying out laboratory analysis, and preparing reports as would be necessary to realize the information potential.

(b) Commercial value. For purposes of this part, the commercial value of any archaeological resource involved in a violation of the prohibitions in Sec. 7.4 of this part or conditions of a permit issued pursuant to this part shall be its fair market value. Where the violation has resulted in damage to the archaeological resource, the fair market value should be determined using the condition of the archaeological resource prior to the violation, to the extent that its prior condition can be ascertained.

(c) Cost of restoration and repair. For purposes of this part, the cost of restoration and repair of archaeological resources damaged as a result of a violation of prohibitions or conditions pursuant to this part, shall be the sum of the costs already incurred for emergency restoration or repair work, plus those costs projected to be necessary to complete restoration and repair, which

[[Page 178]]

may include, but need not be limited to, the costs of the following:

- (1) Reconstruction of the archaeological resource;
- (2) Stabilization of the archaeological resource;
- (3) Ground contour reconstruction and surface stabilization;
- (4) Research necessary to carry out reconstruction or stabilization;
- (5) Physical barriers or other protective devices, necessitated by the disturbance of the archaeological resource, to protect it from further disturbance;
- (6) Examination and analysis of the archaeological resource including recording remaining archaeological information, where necessitated by disturbance, in order to salvage remaining values which cannot be otherwise conserved;
- (7) Reinterment of human remains in accordance with religious custom and State, local, or tribal law, where appropriate, as determined by the Federal land manager.
- (8) Preparation of reports relating to any of the above activities.

Sec. 7.15 Assessment of civil penalties.

(a) The Federal land manager may assess a civil penalty against any person who has violated any prohibition contained in Sec. 7.4 or who has violated any term or condition included in a permit issued in accordance

with the Act and this part.

(b) Notice of violation. The Federal land manager shall serve a notice of violation upon any person believed to be subject to a civil penalty, either in person or by registered or certified mail (return receipt requested). The Federal land manager shall include in the notice:

- (1) A concise statement of the facts believed to show a violation;
- (2) A specific reference to the provision(s) of this part or to a permit issued pursuant to this part allegedly violated;
- (3) The amount of penalty proposed to be assessed, including any initial proposal to mitigate or remit where appropriate, or a statement that notice of a proposed penalty amount will be served after the damages associated with the alleged violation have been ascertained;
- (4) Notification of the right to file a petition for relief pursuant to paragraph (d) of this section, or to await the Federal land manager's notice of assessment, and to request a hearing in accordance with paragraph (g) of this section. The notice shall also inform the person of the right to seek judicial review of any final administrative decision assessing a civil penalty.

(c) The person served with a notice of violation shall have 45 calendar days from the date of its service (or the date of service of a proposed penalty amount, if later) in which to respond. During this time the person may:

- (1) Seek informal discussions with the Federal land manager;
- (2) File a petition for relief in accordance with paragraph (d) of this section;
- (3) Take no action and await the Federal land manager's notice of assessment;
- (4) Accept in writing or by payment the proposed penalty, or any mitigation or remission offered in the notice. Acceptance of the proposed penalty or mitigation or remission shall be deemed a waiver of the notice of assessment and of the right to request a hearing under paragraph (g) of this section.

(d) Petition for relief. The person served with a notice of violation may request that no penalty be assessed or that the amount be reduced, by filing a petition for relief with the Federal land manager within 45 calendar days of the date of service of the notice of violation (or of a proposed penalty amount, if later). The petition shall be in writing and signed by the person served with the notice of violation. If the person is a corporation, the petition must be signed by an officer authorized to sign such documents. The petition shall set forth in full the legal or factual basis for the requested relief.

(e) Assessment of penalty. (1) The Federal land manager shall assess a civil penalty upon expiration of the period for filing a petition for relief, upon completion of review of any petition filed, or upon completion of informal discussions, whichever is later.

(2) The Federal land manager shall take into consideration all available

[[Page 179]]

information, including information provided pursuant to paragraphs (c) and (d) of this section or furnished upon further request by the Federal land manager.

(3) If the facts warrant a conclusion that no violation has occurred, the Federal land manager shall so notify the person served with a notice of violation, and no penalty shall be assessed.

(4) Where the facts warrant a conclusion that a violation has occurred, the Federal land manager shall determine a penalty amount in accordance with Sec. 7.16.

(f) Notice of assessment. The Federal land manager shall notify the person served with a notice of violation of the penalty amount assessed by serving a written notice of assessment, either in person or by registered or certified mail (return receipt requested). The Federal

land manager shall include in the notice of assessment:

(1) The facts and conclusions from which it was determined that a violation did occur;

(2) The basis in Sec. 7.16 for determining the penalty amount assessed and/or any offer to mitigate or remit the penalty; and

(3) Notification of the right to request a hearing, including the procedures to be followed, and to seek judicial review of any final administrative decision assessing a civil penalty.

(g) Hearings. (1) Except where the right to request a hearing is deemed to have been waived as provided in paragraph (c)(4) of this section, the person served with a notice of assessment may file a written request for a hearing with the adjudicatory body specified in the notice. The person shall enclose with the request for hearing a copy of the notice of assessment, and shall deliver the request as specified in the notice of assessment, personally or by registered or certified mail (return receipt requested).

(2) Failure to deliver a written request for a hearing within 45 days of the date of service of the notice of assessment shall be deemed a waiver of the right to a hearing.

(3) Any hearing conducted pursuant to this section shall be held in accordance with 5 U.S.C. 554. In any such hearing, the amount of civil penalty assessed shall be determined in accordance with this part, and shall not be limited by the amount assessed by the Federal land manager under paragraph (f) of this section or any offer of mitigation or remission made by the Federal land manager.

(h) Final administrative decision. (1) Where the person served with a notice of violation has accepted the penalty pursuant to paragraph (c)(4) of this section, the notice of violation shall constitute the final administrative decision;

(2) Where the person served with a notice of assessment has not filed a timely request for a hearing pursuant to paragraph (g)(1) of this section, the notice of assessment shall constitute the final administrative decision;

(3) Where the person served with a notice of assessment has filed a timely request for a hearing pursuant to paragraph (g)(1) of this section, the decision resulting from the hearing or any applicable administrative appeal therefrom shall constitute the final administrative decision.

(i) Payment of penalty. (1) The person assessed a civil penalty shall have 45 calendar days from the date of issuance of the final administrative decision in which to make full payment of the penalty assessed, unless a timely request for appeal has been filed with a U.S. District Court as provided in section 7(b)(1) of the Act.

(2) Upon failure to pay the penalty, the Federal land manager may request the Attorney General to institute a civil action to collect the penalty in a U.S. District Court for any district in which the person assessed a civil penalty is found, resides, or transacts business. Where the Federal land manager is not represented by the Attorney General, a civil action may be initiated directly by the Federal land manager.

(j) Other remedies not waived. Assessment of a penalty under this section shall not be deemed a waiver of the right to pursue other available legal or administrative remedies.

Sec. 7.16 Civil penalty amounts.

(a) Maximum amount of penalty. (1) Where the person being assessed a civil

[[Page 180]]

penalty has not committed any previous violation of any prohibition in Sec. 7.4 or of any term or condition included in a permit issued pursuant to this part, the maximum amount of the penalty shall be the full cost of restoration and repair of archaeological resources damaged

plus the archaeological or commercial value of archaeological resources destroyed or not recovered.

(2) Where the person being assessed a civil penalty has committed any previous violation of any prohibition in Sec. 7.4 or of any term or condition included in a permit issued pursuant to this part, the maximum amount of the penalty shall be double the cost of restoration and repair plus double the archaeological or commercial value of archaeological resources destroyed or not recovered.

(3) Violations limited to the removal of arrowheads located on the surface of the ground shall not be subject to the penalties prescribed in this section.

(b) Determination of penalty amount, mitigation, and remission. The Federal land manager may assess a penalty amount less than the maximum amount of penalty and may offer to mitigate or remit the penalty.

(1) Determination of the penalty amount and/or a proposal to mitigate or remit the penalty may be based upon any of the following factors:

(i) Agreement by the person being assessed a civil penalty to return to the Federal land manager archaeological resources removed from public lands or Indian lands;

(ii) Agreement by the person being assessed a civil penalty to assist the Federal land manager in activity to preserve, restore, or otherwise contribute to the protection and study of archaeological resources on public lands or Indian lands;

(iii) Agreement by the person being assessed a civil penalty to provide information which will assist in the detection, prevention, or prosecution of violations of the Act or this part;

(iv) Demonstration of hardship or inability to pay, provided that this factor shall only be considered when the person being assessed a civil penalty has not been found to have previously violated the regulations in this part;

(v) Determination that the person being assessed a civil penalty did not willfully commit the violation;

(vi) Determination that the proposed penalty would constitute excessive punishment under the circumstances;

(vii) Determination of other mitigating circumstances appropriate to consideration in reaching a fair and expeditious assessment.

(2) When the penalty is for a violation on Indian lands, the Federal land manager shall consult with and consider the interests of the Indian landowner and the Indian tribe having jurisdiction over the Indian lands prior to proposing to mitigate or remit the penalty.

(3) When the penalty is for a violation which may have had an effect on a known Indian tribal religious or cultural site on public lands, the Federal land manager should consult with and consider the interests of the affected tribe(s) prior to proposing to mitigate or remit the penalty.

[49 FR 1027, Jan. 6, 1984, as amended at 52 FR 47721, Dec. 16, 1987]

Sec. 7.17 Other penalties and rewards.

(a) Section 6 of the Act contains criminal prohibitions and provisions for criminal penalties. Section 8(b) of the Act provides that archaeological resources, vehicles, or equipment involved in a violation may be subject to forfeiture.

(b) Section 8(a) of the Act provides for rewards to be made to persons who furnish information which leads to conviction for a criminal violation or to assessment of a civil penalty. The Federal land manager may certify to the Secretary of the Treasury that a person is eligible to receive payment. Officers and employees of Federal, State, or local government who furnish information or render service in the performance of their official duties, and persons who have provided information under Sec. 7.16(b)(1)(iii) shall not be certified eligible to receive payment of rewards.

(c) In cases involving Indian lands, all civil penalty monies and

any item forfeited under the provisions of this section shall be transferred to the appropriate Indian or Indian tribe.

[[Page 181]]

Sec. 7.18 Confidentiality of archaeological resource information.

(a) The Federal land manager shall not make available to the public, under subchapter II of chapter 5 of title 5 of the United States Code or any other provision of law, information concerning the nature and location of any archaeological resource, with the following exceptions:

(1) The Federal land manager may make information available, provided that the disclosure will further the purposes of the Act and this part, or the Act of June 27, 1960, as amended (16 U.S.C. 469 through 469c), without risking harm to the archaeological resource or to the site in which it is located.

(2) The Federal land manager shall make information available, when the Governor of any State has submitted to the Federal land manager a written request for information, concerning the archaeological resources within the requesting Governor's State, provided that the request includes:

(i) The specific archaeological resource or area about which information is sought;

(ii) The purpose for which the information is sought; and

(iii) The Governor's written commitment to adequately protect the confidentiality of the information.

(b) [Reserved]

[49 FR 1027, Jan. 6, 1984; 49 FR 5923, Feb. 16, 1984]

Sec. 7.19 Report.

(a) Each Federal land manager, when requested by the Secretary of the Interior, will submit such information as is necessary to enable the Secretary to comply with section 13 of the Act and comprehensively report on activities carried out under provisions of the Act.

(b) The Secretary of the Interior will include in the annual comprehensive report, submitted to the Committee on Interior and Insular Affairs of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate under section 13 of the Act, information on public awareness programs submitted by each Federal land manager under Sec. 7.20(b). Such submittal will fulfill the Federal land manager's responsibility under section 10(c) of the Act to report on public awareness programs.

(c) The comprehensive report by the Secretary of the Interior also will include information on the activities carried out under section 14 of the Act. Each Federal land manager, when requested by the Secretary, will submit any available information on surveys and schedules and suspected violations in order to enable the Secretary to summarize in the comprehensive report actions taken pursuant to section 14 of the Act.

[60 FR 5260, 5261, Jan. 26, 1995]

Sec. 7.20 Public awareness programs.

(a) Each Federal land manager will establish a program to increase public awareness of the need to protect important archaeological resources located on public and Indian lands. Educational activities required by section 10(c) of the Act should be incorporated into other current agency public education and interpretation programs where appropriate.

(b) Each Federal land manager annually will submit to the Secretary of the Interior the relevant information on public awareness activities required by section 10(c) of the Act for inclusion in the comprehensive report on activities required by section 13 of the Act.

[60 FR 5260, 5261, Jan. 26, 1995]

Sec. 7.21 Surveys and schedules.

(a) The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Board of the Tennessee Valley Authority will develop plans for surveying lands under each agency's control to determine the nature and extent of archaeological resources pursuant to section 14(a) of the Act. Such activities should be consistent with Federal agency planning policies and other historic preservation program responsibilities required by 16 U.S.C. 470 et seq. Survey plans prepared under this section will be designed to comply with the purpose of the Act regarding the protection of archaeological resources.

(b) The Secretaries of the Interior, Agriculture, and Defense and the

[[Page 182]]

Chairman of the Tennessee Valley Authority will prepare schedules for surveying lands under each agency's control that are likely to contain the most scientifically valuable archaeological resources pursuant to section 14(b) of the Act. Such schedules will be developed based on objectives and information identified in survey plans described in paragraph (a) of this section and implemented systematically to cover areas where the most scientifically valuable archaeological resources are likely to exist.

(c) Guidance for the activities undertaken as part of paragraphs (a) through (b) of this section is provided by the Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation.

(d) Other Federal land managing agencies are encouraged to develop plans for surveying lands under their jurisdictions and prepare schedules for surveying to improve protection and management of archaeological resources.

(e) The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Tennessee Valley Authority will develop a system for documenting and reporting suspected violations of the various provisions of the Act. This system will reference a set of procedures for use by officers, employees, or agents of Federal agencies to assist them in recognizing violations, documenting relevant evidence, and reporting assembled information to the appropriate authorities. Methods employed to document and report such violations should be compatible with existing agency reporting systems for documenting violations of other appropriate Federal statutes and regulations. Summary information to be included in the Secretary's comprehensive report will be based upon the system developed by each Federal land manager for documenting suspected violations.

[60 FR 5260, 5261, Jan. 26, 1995]

Subpart B--Department of the Interior Supplemental Regulations

Source: 52 FR 9168, Mar. 23, 1987, unless otherwise noted.

Sec. 7.31 Scope and authority.

The regulations in this subpart are promulgated pursuant to section 10(b) of the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470ii), which requires agencies to develop rules and regulations for carrying out the purposes of the Act, consistent with the uniform regulations issued pursuant to section 10(a) of the Act (subpart A of this part).

Sec. 7.32 Supplemental definitions.

For purposes of this subpart, the following definitions will be used:

(a) Site of religious or cultural importance means, for purposes of Sec. 7.7 of this part, a location which has traditionally been considered important by an Indian tribe because of a religious event which happened there; because it contains specific natural products which are of religious or cultural importance; because it is believed to be the dwelling place of, the embodiment of, or a place conducive to communication with spiritual beings; because it contains elements of life-cycle rituals, such as burials and associated materials; or because it has other specific and continuing significance in Indian religion or culture.

(b) Allotted lands means lands granted to Indian individuals by the United States and held in trust for those individuals by the United States.

Sec. 7.33 Determination of loss or absence of archaeological interest.

(a) Under certain circumstances, a Federal land manager may determine, pursuant to Sec. 7.3(a)(5) of this part, that certain material remains are not or are no longer of archaeological interest, and therefore are not to be considered archaeological resources under this part.

(b) The Federal land manager may make such a determination if he/she finds that the material remains are not capable of providing scientific or humanistic understandings of past human behavior, cultural adaptation, and related topics.

(c) Prior to making a determination that material remains are not or are no longer archaeological resources, the Federal land manager shall ensure that

[[Page 183]]

the following procedures are completed:

(1) A professional archaeological evaluation of material remains and similar materials within the area under consideration shall be completed, consistent with the Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation (48 FR 44716, Sept. 29, 1983) and with 36 CFR parts 60, 63, and 65.

(2) The principal bureau archaeologist or, in the absence of a principal bureau archaeologist, the Department Consulting Archeologist, shall establish whether the material remains under consideration contribute to scientific or humanistic understandings of past human behavior, cultural adaptation and related topics. The principal bureau archaeologist or the Department Consulting Archeologist, as appropriate, shall make a recommendation to the Federal land manager concerning these material remains.

(d) The Federal land manager shall make the determination based upon the facts established by and the recommendation of the principal bureau archaeologist or the Departmental Consulting Archeologist, as appropriate, and shall fully document the basis therefor, including consultation with Indian tribes for determinations regarding sites of religious or cultural importance.

(e) The Federal land manager shall make public notice of the determination and its limitations, including any permitting requirements for activities associated with the materials determined not to be archaeological resources for purposes of this part.

(f) Any interested individual may request in writing that the Departmental Consulting Archeologist review any final determination by the Federal land manager that certain remains, are not, or are no longer, archaeological resources. Two (2) copies of the request should be sent to the Departmental Consulting Archeologist, National Park Service, P.O. Box 37127, Washington, DC 20013-7127, and should document why the requestor disagrees with the determination of the Federal land

manager. The Departmental Consulting Archeologist shall review the request, and, if appropriate, shall review the Federal land manager's determination and its supporting documentation. Based on this review, the Departmental Consulting Archeologist shall prepare a final professional recommendation, and shall transmit the recommendation and the basis therefor to the head of the bureau for further consideration within 60 days of the receipt of the request.

(g) Any determination made pursuant to this section shall in no way affect the Federal land manager's obligations under other applicable laws or regulations.

Sec. 7.34 Procedural information for securing permits.

Information about procedures to secure a permit to excavate or remove archaeological resources from public lands or Indian lands can be obtained from the appropriate Indian tribal authorities, the Federal land manager of the bureau that administers the specific area of the public lands or Indian lands for which a permit is desired, or from the state, regional, or national office of that bureau.

Sec. 7.35 Permitting procedures for Indian lands.

(a) If the lands involved in a permit application are Indian lands, the consent of the appropriate Indian tribal authority or individual Indian landowner is required by the Act and these regulations.

(b) When Indian tribal lands are involved in an application for a permit or a request for extension or modification of a permit, the consent of the Indian tribal government must be obtained. For Indian allotted lands outside reservation boundaries, consent from only the individual landowner is needed. When multiple-owner allotted lands are involved, consent by more than 50 percent of the ownership interest is sufficient. For Indian allotted lands within reservation boundaries, consent must be obtained from the Indian tribal government and the individual landowner(s).

(c) The applicant should consult with the Bureau of Indian Affairs concerning procedures for obtaining consent

[[Page 184]]

from the appropriate Indian tribal authorities and submit the permit application to the area office of the Bureau of Indian Affairs that is responsible for the administration of the lands in question. The Bureau of Indian Affairs shall insure that consultation with the appropriate Indian tribal authority or individual Indian landowner regarding terms and conditions of the permit occurs prior to detailed evaluation of the application. Permits shall include terms and conditions requested by the Indian tribe or Indian landowner pursuant to Sec. 7.9 of this part.

(d) The issuance of a permit under this part does not remove the requirement for any other permit required by Indian tribal law.

Sec. 7.36 Permit reviews and disputes.

(a) Any affected person disputing the decision of a Federal land manager with respect to the issuance or denial of a permit, the inclusion of specific terms and conditions in a permit, or the modification, suspension, or revocation of a permit may request the Federal land manager to review the disputed decision and may request a conference to discuss the decision and its basis.

(b) The disputant, if unsatisfied with the outcome of the review or conference, may request that the decision be reviewed by the head of the bureau involved.

(c) Any disputant unsatisfied with the higher level review, and desiring to appeal the decision, pursuant to Sec. 7.11 of this part, should consult with the appropriate Federal land manager regarding the

existence of published bureau appeal procedures. In the absence of published bureau appeal procedures, the review by the head of the bureau involved will constitute the final decision.

(d) Any affected person may request a review by the Departmental Consulting Archeologist of any professional issues involved in a bureau permitting decision, such as professional qualifications, research design, or other professional archaeological matters. The Departmental Consulting Archeologist shall make a final professional recommendation to the head of the bureau involved. The head of the bureau involved will consider the recommendation, but may reject it, in whole or in part, for good cause. This request should be in writing, and should state the reasons for the request. See Sec. 7.33(f) for the address of the Departmental Consulting Archeologist.

Sec. 7.37 Civil penalty hearings procedures.

(a) Requests for hearings. Any person wishing to request a hearing on a notice of assessment of civil penalty, pursuant to Sec. 7.15(g) of this part, may file a written, dated request for a hearing with the Hearing Division, Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203-1923. The respondent shall enclose a copy of the notice of violation and the notice of assessment. The request shall state the relief sought, the basis for challenging the facts used as the basis for charging the violation and fixing the assessment, and respondent's preference as to the place and date for a hearing. A copy of the request shall be served upon the Solicitor of the Department of the Interior personally or by registered or certified mail (return receipt requested), at the address specified in the notice of assessment. Hearings shall be conducted in accordance with 43 CFR part 4, subparts A and B.

(b) Waiver of right to a hearing. Failure to file a written request for a hearing within 45 days of the date of service of a notice of assessment shall be deemed a waiver of the right to a hearing.

(c) Commencement of hearing procedures. Upon receipt of a request for a hearing, the Hearing Division shall assign an administrative law judge to the case. Notice of assignment shall be given promptly to the parties, and thereafter, all pleadings, papers, and other documents in the proceeding shall be filed directly with the administrative law judge, with copies served on the opposing party.

(d) Appearance and practice. (1) Subject to the provisions of 43 CFR 1.3, the respondent may appear in person, by representative, or by counsel, and may participate fully in those proceedings. If respondent fails to appear and the administrative law judge determines

[[Page 185]]

such failure is without good cause, the administrative law judge may, in his/her discretion, determine that such failure shall constitute a waiver of the right to a hearing and consent to the making of a decision on the record made at the hearing.

(2) Departmental counsel, designated by the Solicitor of the Department, shall represent the Federal land manager in the proceedings. Upon notice to the Federal land manager of the assignment of an administrative law judge to the case, said counsel shall enter his/her appearance on behalf of the Federal land manager and shall file all petitions and correspondence exchanges by the Federal land manager and the respondent pursuant to Sec. 7.15 of this part which shall become part of the hearing record. Thereafter, service upon the Federal land manager shall be made to his/her counsel.

(e) Hearing administration. (1) The administrative law judge shall have all powers accorded by law and necessary to preside over the parties and the proceedings and to make decisions in accordance with 5 U.S.C. 554-557.

(2) The transcript of testimony, the exhibits, and all papers,

documents and requests filed in the proceedings, shall constitute the record for decision. The administrative law judge shall render a written decision upon the record, which shall set forth his/her findings of fact and conclusions of law, and the reasons and basis therefor, and an assessment of a penalty, if any.

(3) Unless a notice of appeal is filed in accordance with paragraph (f) of this section, the administrative law judge's decision shall constitute the final administrative determination of the Secretary in the matter and shall become effective 30 calendar days from the date of this decision.

(4) In any such hearing, the amount of civil penalty assessed shall be determined in accordance with this part, and shall not be limited by the amount assessed by the Federal land manager under Sec. 7.15 of this part or any offer of mitigation or remission made by the Federal land manager.

(f) Appeal. (1) Either the respondent or the Federal land manager may appeal the decision of an administrative law judge by the filing of a "Notice of Appeal" with the Director, Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203-1923, within 30 calendar days of the date of the administrative law judge's decision. Such notice shall be accompanied by proof of service on the administrative law judge and the opposing party.

(2) Upon receipt of such a notice, the Director, Office of Hearings and Appeals, shall appoint an ad hoc appeals board to hear and decide an appeal. To the extent they are not inconsistent herewith, the provision of the Department of Hearings and Appeals Procedures in 43 CFR part 4, subparts A, B, and G shall apply to appeal proceedings under this subpart. The decision of the board on the appeal shall be in writing and shall become effective as the final administrative determination of the Secretary in the proceeding on the date it is rendered, unless otherwise specified therein.

(g) Report service. Copies of decisions in civil penalty proceedings instituted under the Act may be obtained by letter of request addressed to the Director, Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203-1923. Fees for this service shall be as established by the Director of that Office.
