Raísín Grower Survey

20

The profile of California's Raisin Industry has changed over the last 3-5 years. There are fewer growers, production acres have been reduced, new production systems are in place, and change continues to be a constant. In an effort to get a snapshot of the industry, the RAC Board is asking you to complete the following questionnaire. The purpose of this survey is to more accurately describe the current status of the industry. We will publish the results of this information. Please complete and return to the RAC office by [Insert date].
