Subject: public comment on federal register of 5/15/07 vol 72 #93 pg 27317 (0920-0007)

dhs cdc 60 day 07 0007 monthly reports

1. cut staff.

2. downsize this collection of information - monthly reports are often enough.

it is clear our government has absolutely no interest in having a more healthful population since our government allows our borders to be routinely open to allow sneaking illegal immigrant criminals to sneak into our country carrying unknown diseases. our tb rate has gone up as a result, as well as other diseases. our own government is promoting unhealthful practices for u.s. citizens through allowing these open borders and through not deporting every single illegal immigrant freeloading in this country, with their getting free education, free medical care and all other freebies.
