

Program Change Due to Agency Discretion for the SSA-624 (0960-0069)

SSA is reporting a decrease in the public reporting burden is due to the replacement of the SSA-624 with the SSA-639 for the 2,000 random interviews which are conducted annually with the representative payees. Since ROCIS does not properly report the burden for this program change, the below two charts were formulated to show how SSA calculated the correct burden information. It takes the field office representatives 30 minutes to interview the representative payees and fill out the SSA-624.

Decrease of 2,000 Respondents:

Type of Respondent	Current Inventory (Respondents)	Program Change	New Number of Respondents
Individuals	182,500	-1,180	181,320
State/Local Government	8,000	-100	7,900
Businesses	61,500	-720	60,780
Totals	252,000	-2,000	250,000

Decrease of 1,000 Annual Burden Hours (Due to the Decrease in Respondents):

Type of Respondent	Current Inventory (Burden)	Program Change	New Total Annual Burden
Individual	91,250	-590	90,660 Hours
State/Local Government	4,000	-50	3,950 Hours
Businesses	30,750	-360	30,390 Hours
Totals	126,000	-1,000	125,000 Hours
