Rotational Section 4

Each year, the U.S. Mint produces a set quantity (i.e. mintage) of American Eagle Gold Proof 1 oz. coins. Over the past three years, these 1 oz. coins (priced at \$789.95 in 2007) have sold out within 3 to 6 months of their release, even though the quantity minted has been increased each year.

The table below shows the mintage quantities, release date, and sell-out date for the American Eagle 1 oz. Proof coin for the past three years.

American Eagle Gold Proof 1 Oz. Coin

<u>Year</u>	<u>Mintage</u>	<u>Release Date</u>	<u>Sell-Out Date</u>
<u>2007</u>	<u>18,000</u>	<u>February</u>	<u>July</u>
<u>2006</u>	<u>12,000</u>	<u>February</u>	<u>May</u>
<u>2005</u>	<u>10,000</u>	<u>February</u>	<u>June</u>

The U.S. Mint is considering different mintage quantity options for 2008 for this American Eagle 1 oz. coin.

Q.4t-1. Which of the following would be your preference for the approach the U.S. Mint takes regarding mintage quantities for American Eagle 1 oz. Gold Proof coins in 2008?

(Select one)

Occasion American Eagle Gold Proof 1 oz. Coin Mintage Option	Your Preference
Option A: Keep Mintage at 2007 levels of 18,000 -- U.S. Mint continues to set a limit (similar to current levels) <i>with no mechanism for increasing production to meet demand</i>	<u>0</u>
Option B: Slight Increase in Mintage to 20,000 -- U.S. Mint initiates a modest increase in the set limit for production of American	<u>0</u>

Eagle Proof 1 oz. coins (<i>but the limit remains fixed once announced with no mechanism for increasing production to meet demand</i>)	
Option C: Substantial Increase in Mintage to 27,000 -- U.S. Mint significantly increases (e.g., by 50%) the set limit for production of American Eagle Proof 1 oz. coins (<i>but the limit remains fixed once announced with no mechanism for increasing production to meet demand</i>)	<u>Q</u>
Option D: Decrease in Mintage to 9,000 -- U.S. Mint significantly lowers (e.g. by 50%) the set limit for production of American Eagle Proof 1 oz. coins (<i>but the limit remains fixed once announced with no mechanism for increasing production to meet demand</i>)	<u>Q</u>
Option E: Adopt a Variable Mintage Limit (i.e. “Mint to Demand”) that Allows Mintage to Increase to Meet Demand -- U.S. Mint produces an initial quantity of American Eagle Proof 1 oz. coins and mints additional coins throughout the year as dictated by demand (<i>i.e., there is no set limit on mintage quantities</i>)	<u>Q</u>
It Doesn't Matter to Me	<u>Q</u>
Other (Specify _____)	<u>Q</u>

Q.4t-2. If the U.S. Mint did choose to adopt a variable mintage limit for the American Eagle Gold Proof 1 oz. coin (i.e., “Mint to Demand”) that would allow the mintage quantity to vary in response to the purchase demand for the coin, how would this affect your purchasing of American Eagle Gold Proof coins in 2008?

(Select one)

<u>Impact of Adopting a Variable Mintage Limit (i.e., “Mint to Demand”) for American Eagle Gold Proof 1 oz. Coins on Your Purchasing</u>	<u>Select One</u>
<u>I would buy the same amount</u> of American Eagle Gold Proof 1 oz. coins (as I otherwise would have) if they adopt a variable “Mint to Demand” mintage approach	<u>0</u>
<u>I would likely buy more</u> American Eagle Gold Proof 1 oz. coins (than I otherwise would have) if they adopt a variable “Mint to Demand” mintage approach	<u>0</u>
<u>I would likely buy less</u> American Eagle Gold Proof 1 oz. coins (than I otherwise would have) if they adopt a variable “Mint to Demand” mintage approach	<u>0</u>
Other (Specify _____)	<u>0</u>

Q.4t-3. What comments, if any, do you have about the possibility of the U.S. Mint adopting a variable mintage limit for the American Eagle Gold Proof 1 oz. coin (i.e., "Mint to Demand") that would allow the mintage quantity to vary in response to the purchase demand for the coin?
