#### **EXAMPLES OF DIRECT AND INDIRECT FOREIGN OWNERSHIP**

#### **Example 1** – Ownership held directly by a foreign parent

Foreign company Y is the foreign parent because it is the first owner located outside the U.S. in a chain of ownership that owns 10 percent or more of the U.S. affiliate.

#### **Example 2** – Ownership held indirectly by a foreign parent through another U.S. affiliate

U.S. affiliate B is indirectly owned by the foreign parent through U.S. affiliates A.

#### INDUSTRY CLASSIFICATION, TOTAL SALES, AND EMPLOYEES OF FULLY CONSOLIDATED U.S. AFFILIATE

#### Column (1) - ISI Code -

Industry classification of fully consolidated U.S. affiliate (based on sales or gross operating revenues) — Enter the 4-digit International Surveys Industry (ISI) code(s) and the sales and employment associated with each code. For a full explanation of each code, see the *Guide to Industry and Foreign Trade Classifications for International Surveys, 2007.* A copy of this guide can be found on our web site at: www.bea.gov/naics2007

If you use fewer than ten codes, you must account for total sales in items 21 through 29. For an inactive affiliate, show the industry classification(s) based on its last active period; for "start-ups" with no sales, show the intended activity(ies).

#### Column (2) - Sales -

**Total sales or gross operating revenues, excluding sales taxes** – Gross sales minus returns, allowances, and discounts; or gross operating revenues. EXCLUDE sales or consumption taxes levied directly on the consumer and excise taxes levied directly on manufacturers, wholesalers, and retailers. INCLUDE revenues generated during the year from the operations of a discontinued business segment, but EXCLUDE gains or losses from DISPOSALS of discontinued operations. Report such gains or losses on page x, item x.

**Dividends, interest, and investment gains (losses)** – INCLUDE dividends and interest earned ONLY by finance and insurance companies and units. EXCLUDE dividends and interest earned by non-finance and non-insurance companies and units. Non-finance and non-insurance companies and units should report dividends and interest as other income (page x, item x). EXCLUDE all investment gains and losses. Report all investment gains and losses as certain realized and unrealized gains (losses) (page x, item x).

**Holding companies** (ISI code 5512) must show total income as reported in item xx on page x. **Note** – A U.S. affiliate that is a conglomerate must determine its industry code based on the activities of the fully consolidated domestic U.S. business enterprise. The "holding company" classification, therefore, is often an invalid industry classification for a conglomerate.

**Derivative instruments** – EXCLUDE all gains and losses from derivative instruments. Report gains and losses from derivative instruments as certain realized and unrealized gains and losses (page x, item xx).

Book publishers, printers, and Real Estate Investment Trusts - See instructions for items xx-xx on page xx.

#### Column (3) - Employment -

**Employment** – Include in column (3) all employees, including part-time employees, on the payroll at the end of FY 2007, associated with each code. (For employees engaged in manufacturing activities, also see the instructions for column (4) of the state schedule located on page xx). A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of the number on the payroll at the end of the fiscal year that ended in calendar year 2007. Reporting employment (including how to report when employment is subject to unusual variations) is discussed in more detail on page xx.

#### Section D — DISTRIBUTION OF SALES OR GROSS OPERATING REVENUES

Distribute sales or gross operating revenues among three categories — sales of goods, sales of services, and investment income. For the purpose of this distribution, "goods" are normally outputs that are tangible and "services" are normally outputs that are intangible. When a sale consists of both goods and services and cannot be unbundled (i.e., the goods and services are not separately billed), classify the sales as goods or services based on whichever accounts for a majority of the value. Give best estimates if actual figures are not available.

#### **EXAMPLE OF FOREIGN PARENT GROUP**

#### NOTE: Arrows connecting boxes represent direction of ownership

Foreign parent group means (i) the foreign parent, (ii) any foreign person, proceeding up the foreign parent's ownership chain, which owns more than 50 percent of the person below it up to and including that person which is not owned more than 50 percent by another foreign person, and (iii) any foreign person, proceeding down the ownership chain(s) of each of these members, which is owned more than 50 percent by the person above it.

The term **"person"** in the above paragraph is used in the broad legal sense and includes companies. See instruction II.C. on page xx for the complete definition of person.

BASIS FOR REPORTING U.S. TRADE IN GOODS DATA  "Shipped" versus "Charged"				
Report U.S. trade in goods data on this BE-12 report using the "shipped" basis. The shipped is movement of goods. Data reported on the "shipped" basis for exports are based on (i) when, (ii) to what goods were shipped. Data reported on the "shipped" basis for imports are based on (i) when, (ii) from where the goods were shipped. The "shipped" basis is the same basis on which official U.S. trade stat which the trade data reported on the BE-12 will be compared.	om, and whom, a istics are	(iii) t and (i kept	to where t iii) from and to	the
DO NOT REPORT the U.S. trade in goods data using the "charged" basis. U.S. affiliates normal records on a "charged basis." Data reported on the "charged" basis are based on (i) when, (ii) to or from where goods are charged for accounting and bookkeeping purposes. The "charged" basis may be material difference between it and the "shipped" basis. However, if there is a material difference, the "used or adjustments must be made to the "charged" basis data to approximate a "shipped" basis. To a to a "shipped" basis it may be necessary to look at export and import declarations filed with U.S. custor receiving documents to determine the physical movement of goods.  Differences between the "charged" and "shipped" basis may be substantial. A major difference arises goods in foreign country A and sells them in foreign country B. Because the goods did not physically States, they are not U.S. trade. However, when the U.S. affiliate records the transactions on its books purchase charged to it from country A and a sale charged by it to country B. If the U.S. affiliate's trade were prepared on the "charged" basis, the purchase and sale would appear incorrectly as a U.S. imporespectively. Other differences arise when the U.S. affiliate charges the sale of its products to a foreign goods directly from the United States to an unaffiliated foreign person. If the data are on the "shipped U.S. export to an unaffiliated foreign person, not to the foreign parent.	whom, e used if shipped" djust "choms or s when a renter or, it would le data it ort and to go paren	and there basi narge hippi U.S. r leav d sho n this J.S. e t, but	(iii) to or e is no s must be std" basis on and affiliate by the Uniow as survey export, t ships the	e data ouys ited

#### Section K — EXPORTS AND IMPORTS OF U.S. AFFILIATE — Continued

Report the value of goods exported and imported by the U.S. affiliate during the fiscal year that ended in calendar year 2007. EXCLUDE services. Software publishers see the discussion below under packaged general use computer software.

**Definition of U.S. trade in goods** — The phrases "U.S. trade in goods," "U.S. goods exports," and "U.S. goods imports" refer to physical movements of goods between the customs area of the United States and the customs area of a foreign country.

**Trade of the U.S. affiliate** — Goods shipped by, or to, the U.S. affiliate whether or not they were actually charged or consigned by, or to, the U.S. affiliate, are considered to be trade of the U.S. affiliate.

**Timing** — Only include goods actually shipped between the United States and a foreign country during FY 2007 regardless of when the goods were charged or consigned. For example, include goods shipped by the U.S. affiliate in FY 2007 that were charged or consigned in FY 2008, but exclude goods shipped in FY 2006 that were charged or consigned in FY 2007.

**Column (1) — Valuation of exports and imports —** Value U.S. goods exports and imports f.a.s. (free alongside ship) at the port-of-exportation. This includes all costs incurred up to the point of loading the goods aboard the export carrier at the U.S. or foreign port of exportation, including the selling price at the interior point of shipment (or cost if not sold), packaging cost, and inland freight and insurance. It excludes all subsequent costs such as loading costs, U.S. and foreign import duties, and freight and insurance from the port of exportation to the port of entry.

**Column (2), (3), and (4)** — **By (or to) whom the goods were shipped** – Shipment by, or to, an entity refers to the physical movement of merchandise to or from the U.S. customs area by, or to, that entity regardless of by, or to, whom the goods were charged or consigned. For example, if the U.S. affiliate charges goods to a foreign parent but ships the goods to an unaffiliated foreign person, record the goods as U.S. goods exports by the U.S. affiliate to the unaffiliated foreign person.

Goods shipped by an independent carrier or a freight forwarder to or from the United States at the expense of a U.S. affiliate are respectively imports or exports of the U.S. affiliate.

**Capital goods** — Include capital goods (e.g., manufacturing equipment used to produce goods for sale) but exclude the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or merchandise.

**Consigned goods** — Include consigned goods in the trade figures when shipped or received, even though they are not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned.

**Electricity and water** — Report the value of electricity and water exports and imports if the product value can be separated out from the service value. Report ONLY the product value (electricity and water). DO NOT report the service value (transmission and distribution).

In-transit goods — Exclude the value of any in-transit goods. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter those countries only because those countries are along the shipping lines between the exporting and importing countries. In-transit goods are goods that are en route from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

**Natural gas distribution** — INCLUDE the value of natural gas that is exported or imported as trade in goods. However, EXCLUDE natural gas that you do not produce or sell, but simply transmit for others via a pipeline.

Packaged general use computer software — INCLUDE exports and imports of packaged general use computer software. Value such exports and imports at the full transaction value, i.e., including both the value of the media on which the software is recorded and the value of the information contained on the media. EXCLUDE receipts or payments for customized software designed to meet the needs of a specific user. This type of software is considered a service and should not be reported as trade in goods. EXCLUDE receipts and payments for software that is transmitted electronically rather than physically shipped. Also EXCLUDE negotiated licensing fees for software to use on networks.

#### Section L — SCHEDULE OF EMPLOYMENT AND PROPERTY, PLANT, AND EQUIPMENT, BY LOCATION

#### **INSTRUCTIONS FOR PAGE 17-**

The Schedule of Employment and Property, Plant, and Equipment, by Location covers the 50 States, the District of Columbia, and all territories and possessions of the United States. Include in this schedule only amounts pertaining to those U.S. business enterprises that are fully consolidated into the reporting U.S. affiliate. Do not consolidate or include amounts for foreign business enterprises or operations, whether incorporated or unincorporated.

**Location** of employees or of an asset is the U.S. State, territory, or possession in which the person is permanently employed, or in which the land or other property, plant, and equipment is physically located and to which property taxes, if any, on such assets are paid.

<u>Example</u>: An employee carried on the payroll of a company located in California who is on a duty assignment for one year or less in Texas should be shown as being located in California, not Texas.

Exception: If the duty assignment is for more than one year, show the employee as being located in Texas, not California.

**Column (3)** — INCLUDE all employees on the payroll at the end of the fiscal year that ended in calendar year 2006, including part-time employees. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of the number on the payroll at the end of the fiscal year.

**Employment** is the number of full-time and part-time employees on the payroll at the end of FY 2007, excluding contract workers and other workers not carried on the payroll of this U.S. affiliate. If employment at the end of FY 2007 or the count taken at some other time during FY 2007, was unusually high or low because of temporary factors (e.g., a strike), give the number of employees that reflects normal operations. If the business enterprise's activity involves large seasonal variations, give the average number of employees for FY 2007. If given, the average should be the average for FY 2007 of the number of persons on the payroll at the end of each payroll period, month, or quarter. If precise figures are not available, give your best estimate.

**Column (4)** — INCLUDE all employees on the payrolls of operating manufacturing plants in the state. INCLUDE administrative office and other auxiliary employees located at an operating plant and who serve only that plant. EXCLUDE employees on the payrolls of administrative offices or other auxiliary units reported on page 5, line 34, column 3.

**Column (5)** — INCLUDE land and other property, plant, and equipment, whether carried as investments, in fixed asset accounts, or in other balance sheet accounts. INCLUDE land held for resale, held for investment purposes, and all other land owned. INCLUDE property you own that you lease to others under operating leases. INCLUDE land and other property, plant, and equipment on capital leases from others, but EXCLUDE that on capital leases to others.

Value land and other property, plant, and equipment at historical cost before allowances for depreciation or depletion.

Column (6) — INCLUDE the gross book value of commercial property you own, and commercial property you use or operate that is leased from others under a capital lease. Commercial property INCLUDES ALL buildings and associated land leased or rented to others under operating leases. Commercial property INCLUDES apartment buildings; office buildings; hotels; motels; and buildings used for wholesale, retail, and services trades, such as shopping centers, recreational facilities, department stores, bank buildings, restaurants, public garages, and automobile service stations. INCLUDE the value of land associated with these buildings. INCLUDE office buildings and associated land owned by industrial companies NOT located at industrial sites. EXCLUDE furniture and equipment located at commercial property. EXCLUDE property you use for agricultural, mining, manufacturing, or other industrial purposes (such as water and sewage treatment, electric power generation, and other utility plants), property you use to support these activities, such as research labs and warehouses, and office buildings located at industrial sites. Also EXCLUDE educational buildings, hospitals, nursing homes, institutional buildings, and all undeveloped land.

- **209. U.S. offshore oil and gas sites** Use this line to report offshore oil and gas sites located within U.S. claimed territorial waters but NOT located within the territorial waters of a specific state. Offshore oil and gas sites located within the territorial waters of a specific state should be reported in that state along with all related property, plant, equipment, and employees. For offshore oil and gas sites located outside U.S. claimed territorial waters, see item 211e below.
- **211. Foreign** Except as noted below, do not include employees, land, and other property, plant, and equipment, located outside of the United States on line 163 or elsewhere on the Schedule of Employment and Property, Plant, and Equipment, By Location.
  - **a.** Employees normally located in the United States who are on a temporary duty assignment outside of the country for one year or less should be reported in the U.S. state, territory, or possession where they are normally located.
  - **b.** Employees normally located in the United States who are on a duty assignment outside of the country for more than one year and carried on the payroll of the domestic U.S. affiliate should be reported on line 163. Exclude these employees from the BE-15 report if they are carried on a foreign payroll.
  - c. Real estate located outside the United States that is owned by the U.S. affiliate and carried on its books but which generates no revenues for, or reimbursements to, the U.S. affiliate should be reported on line 163. Real estate located outside the United States that generates revenues for, or reimbursements to, the U.S. affiliate, or that facilitates the foreign operations of the U.S. affiliate is a foreign subsidiary and should not be consolidated on this BE-15 report.
  - **d.** Machinery and similar equipment located outside the United States that are owned by the domestic U.S. affiliate and carried on its books should be reported on line 163. However, items that frequently switches locations, such as aircraft, railroad rolling stock, ships of U.S. registry, or vehicles should be reported as "Other property, plant, and equipment" on line 164.
  - e. Use the "foreign" line to report oil and gas sites that (1) are owned by U.S. affiliates; (2) are located outside of U.S. claimed territorial waters; (3) are <u>not</u> incorporated in a foreign country; (4) are <u>not</u> organized as a branch; and (5) do <u>not</u> otherwise have a physical presence in a foreign country as evidenced by plant and equipment or employees located in a foreign country.
  - **f.** Use the category "foreign" to report communication channels that physically exist (i.e., are tangible) that are (1) located outside of the United States, (2) owned by the U.S. affiliate, and (3) carried directly on the U.S. affiliate's book (i.e., not carried on the books of a foreign affiliate owned by the U.S. affiliate).
- 212. Other property, plant, and equipment Use this line to report (1) items that frequently switch locations such as aircraft, railroad rolling stock, ships of U.S. registry, and vehicles engaged in interstate transportation, (2) items such as pipelines, fiber optic cable, power lines, etc., located in more than one state that cannot be allocated among specific states, (3) satellites, undersea cable, and other communication channels that are not located in a specific state, (4) property leased to others, except land or buildings, under operating leases, and (5) items owned by an unincorporated U.S. affiliate's foreign parent but which are in the U.S. affiliate's possession in the United States.

Such ownership interests are reported on page 3 (and, if applicable, continued on a separate sheet). If a foreign parent held **both** direct **and** indirect ownership interests in this U.S. affiliate, prepare one Part III to report the direct interest and a separate Part III to report the indirect interest. A Part III must also be prepared for foreign parent ownership interests disposed of in their entirety during the year. Use this Part III to report the foreign parent with the largest direct voting interest at year-end. Use photocopies of this Part III to report all additional direct and indirect voting interests, if any, held by foreign parents in this U.S. affiliate. #### Section A - IDENTIFICATION OF FOREIGN PARENT AND ULTIMATE BENEFICIAL OWNER - Continued

Name, Country, and Industry Code of Ultimate Beneficial Owner (UBO)

**Furnish the name, country, and industry code of the UBO.** The UBO is that person or entity, proceeding up the ownership chain beginning with and including the foreign parent, that is not more than 50 percent owned or controlled by another person or entity. See instruction II.O. on page xx for the complete definition of UBO.

See the diagrams at the bottom of this page for examples of the UBO.

- 219. Is the foreign parent named in item 214 also the UBO? If the foreign parent is owned or controlled more than 50 percent by another person or entity, then the foreign parent is NOT the UBO.

### Section B - INTERCOMPANY BALANCE, INTEREST, DIVIDENDS, AND DISTRIBUTED EARNINGS BETWEEN THE U.S. AFFILIATE AND THE FOREIGN PARENT NAMED IN ITEM 214

**Report** all current and long-term intercompany accounts, interest, and dividends or distributed earnings between the U.S. affiliate and the foreign parent named in item 214.

**Derivatives Contracts – Exclude** the value of outstanding financial derivatives contracts and any payments or receipts resulting from the settlement of those contracts. For example, the settlements of interest rate derivatives should NOT be reported as interest or as another type of transaction on this form. Derivatives contracts are covered by the Treasury International Capital (TIC) Form D, Report of Holdings of, and Transactions in, Financial Derivatives Contracts with Foreign Residents.

If leases between the U.S. affiliate and the foreign parent or between the U.S. affiliate and the FAFPs are capitalized, then the outstanding capitalized value should be reported in items 224 and 225 as an intercompany balance. Lease payments should be disaggregated into the amounts that are (i) a reduction in an intercompany balance, to be reported in items 224 or 225, and (ii) interest, to be reported in item 226.

### PART IV - BALANCES AND INTEREST BETWEEN U.S. AFFILIATE, AS CONSOLIDATED, AND FOREIGN AFFILIATES OF THE FOREIGN PARENT (FAFPS)

242. Does this consolidated U.S. affiliate have accounts or direct transactions with foreign affiliates of the foreign parent (FAFPs)? See definition of FAFP and example below.

1014 1 Yes – Complete the rest of Part IV
1 2 No – Do not complete Part IV

**Foreign affiliate of a foreign parent** means, with reference to a given U.S. affiliate, any member of the affiliated foreign parent group owning the U.S. affiliate that is not a foreign parent of the U.S. affiliate.

NOTE: Arrows connecting boxes represent direction of ownership

#### Complete the following section if item 242 above is answered "Yes."

**Report** all current and long-term intercompany accounts and transactions between the U.S. affiliate and the foreign affiliates, of the foreign parent (FAFPs).

**Derivatives Contracts – Exclude** the value of outstanding financial derivatives contracts and any payments or receipts resulting from the settlement of those contracts. For example, the settlements of interest rate derivatives should NOT be reported as interest or as another type of transaction on this form. Derivatives contracts are covered by the Treasury International Capital (TIC) Form D, Report of Holdings of, and Transactions in, Financial Derivatives Contracts with Foreign Residents.

If leases between the U.S. affiliate and the foreign parent are capitalized, then the outstanding capitalized value should be reported as an intercompany liability or receivable balance. Lease payments should be disaggregated into the amounts that are (i) a reduction in an intercompany liability or receivable balance and (ii) interest.

What were the balances with the FAFPs at the end of the year, by country? If more rows are needed in order to list all countries, use additional sheets as necessary. A photocopy of Page 22 may be used for this purpose.
