

Acute GVHD Treatment Survey

Answer questions as they relate to you. For most answers, check the boxes most applicable to you or fill in the blanks.

Please tell us about your center:

1. What is your IBMTR Center Number? (Note: The results of the survey are provided to the survey team without this identifier. It is used within the survey process only to exclude duplicate responses.)
 2. In what country is your program located?
 3. Approximately how many adult (>18 yrs) patients underwent first allogeneic stem cell transplantation at your center in 2008?
 4. Approximately how many pediatric (<18 yrs) patients underwent first allogeneic stem cell transplantation at your center in 2008?
 5. Is your center accredited by FACT or JACIE?
 Yes
 No
 6. Does your center have a standardized approach to treatment of acute GVHD (e.g., SOP, critical pathway, written guideline, current practice protocol, etc)?
 Yes
 No (**Skip to end and click the Submit Your Responses button**)
-

Primary Treatment of acute GVHD in adults

Please tell us about your primary treatment of acute GVHD in adults. Please provide your response in terms of the drug (s), dose(s) and schedule(s) (e.g., prednisone 1 mg/kg PO q 12 hr). Designate what grade or range of grades of GVHD are treated with the regimen identified (e.g., Index A, grades 2-4, grades 3-4, etc):

7. What is your first line therapy for acute GVHD in adult recipients of transplants from matched related donors (grade, drug, dose, schedule)?
8. What is your first line therapy for acute GVHD in adult recipients of transplants from unrelated donors (grade, drug, dose, schedule)?

Salvage Treatment of acute GVHD in adults

Please tell us about your salvage treatment of acute GVHD in adults. Please provide your response in terms of the drug (s), dose(s) and schedule(s) (e.g., prednisone 1 mg/kg PO q 12 hr). Designate what grade or range of grades of GVHD are treated with the regimen identified (e.g., Index A, grades 2-4, grades 3-4, etc):

9. What is the standard definition used at your center for "steroid-refractory" acute GVHD (e.g., "not resolved after 7 days of methylprednisolone at 2 mg/kg/day," "progressing at any time on prednisone at 1 mg/kg/day," "only after steroid course include a 3 day pulse of 10 mg/kg/day" etc.)?

10. What is your primary salvage therapy for acute GVHD (give drug, dose and schedule) in adults recipients of transplants from matched related donors?

11. What is your primary salvage therapy for acute GVHD (give drug, dose and schedule) in adults recipients of transplants from matched unrelated donors?

12. Comments:

13. If you transplant pediatric patients, do you use the same therapies answered in questions #7-8 and #10-11 above for the pediatric patients?

- Yes (**Skip to Q. 20**)
- No (**Skip to Q. 14**)
- We don't treat pediatric patients (**Skip to Q. 20**)

Primary Treatment of acute GVHD in Children

Please tell us about your primary treatment of acute GVHD in children. Please provide your response in terms of the drug (s), dose(s) and schedule(s) (e.g., prednisone 1 mg/kg PO q 12 hr). Designate what grade or range of grades of GVHD are treated with the regimen identified (e.g., Index A, grades 2-4, grades 3-4, etc):

14. What is your first line therapy for acute GVHD in pediatric recipients of transplants from matched related donors (grade, drug, dose, schedule)?

15. What is your first line therapy for acute GVHD in pediatric recipients of transplants from unrelated donors (grade, drug, dose, schedule)?

16. Comments:

Salvage Treatment of GVHD in children

17. What is your primary salvage therapy for acute GVHD (give drug, dose and schedule) in pediatric recipients of transplants from matched related donors?

18. What is your primary salvage therapy for acute GVHD (give drug, dose and schedule) in pediatric recipients of transplants from matched unrelated donors?

19. Comments

Standardize Guideline

Please let us know if your center has a standardized guideline for tapering steroids after treatment of acute GVHD:

20. What is the general guideline for steroid taper after first line therapy at your center?

21. What is the general guideline for steroid taper after salvage therapy at your center?

22. Comments
