1. Before You Start

The following items below are suggestions to follow before submitting your file for SSN verification.

Before submitting your file, we recommend that you ensure the file is error-free and can be sent quickly.

We provide the proper file format on the [CBSV Help](#) page and in the [CBSV Users Guide](#). Reviewing your file for proper formatting may prevent it from being rejected.

[Submission File Format](#)
- Zip your file**

If you have over 500 Name/SSN requests or a slow connection, the transmission will be faster if the file is zipped (compressed). WinZip and PKZip are examples of acceptable compression packages. This will substantially reduce the time required to transmit your file.
