PRIVACY ACT

Under the provision of P.L. 93-579 (Privacy Act) you are advised that Public Law 658, 79th Congress, dated August 8, 1946, Bureau of Budget Circular A-72, dated June 18, 1976, authorizes the Social Security Administration to collect the personal information requested on this form. Your response is voluntary.

The information you provided will be used principally for administering medical treatment as requested by your private physician. This information may also be used for maintaining your health record in Employee Health Service.

If you do not provide the required information, Employee Health Service will be unable to provide the requested service.

Information regarding Disclosure of Your Social Security Number Under Public Law 93-579 Section 7 (b)

Disclosure by you of your Social Security Number (SSN) is mandatory to obtain the services, benefits or processes that you are seeking. Solicitation of the SSN by the Social Security Administration is authorized under provisions of Executive Order 9397, dated November 22, 1943. The SSN is used as an identifier throughout your Federal career from the time of application through retirement. It will be used primarily to identify your records that you file with the Social Security Administration and the Civil Service Commission. The SSN also will be used by the Social Security Administration and the Civil Service Commission in connection with lawful requests for information about you from your former employers, educational institutions, and financial or other organizations. The information gathered through the use of the number will be used only as necessary in personnel administration processes carried out in accordance with established regulations and published notices of systems of records. The SSN also will be used for the selection of persons to be included in statistical studies of personnel management matters. The use of the SSN is made necessary because of the large number of present and former Federal employees and applicants who have identical names and birth dates, and whose identities can only be distinguished by the SSN.
