

PART B

Under a cooperative agreement between OVW and the University of Southern Maine's Muskie School of Public Service, data collected from OVW grantees on all of OVW's progress report forms is transmitted to the Muskie School for analysis. For the analysis of the data, standard descriptive statistics (frequency, sum, percentage, mean, etc.) are used to describe the characteristics of the grantees and report basic findings. All analyses are conducted in SPSS 13.0
