

Specifically, I take official notice that following a hearing on September 20–21, 2005, the Tennessee Board of Medical Examiners concluded that Respondent had violated multiple provisions of Tennessee law, including Tenn. Code Ann. § 63–6–214(b)(12), which prohibits, *inter alia*, “dispensing, prescribing or otherwise distributing any controlled substance or any other drug not in the course of professional practice.” *In re Yeates*, Order at 3 (Tenn. Bd. of Med. Examiners 2005). On October 12, 2005, the State Board thus permanently revoked Respondent’s medical license.² *Id.* at 4. Subsequent to the State Board’s order, DEA has received no information indicating that that the order has been set aside on appeal. Accordingly, I find that Respondent is not authorized to handle controlled substances in Tennessee.

DEA does not have statutory authority under the Controlled Substances Act to maintain a registration if the registrant is without state authority to handle controlled substances in the state in which he practices. *See* 21 U.S.C. 823(f), 824(a)(3). DEA has consistently applied this rule. *See James Marvin Goodrich, M.D.*, 70 FR 24619 (2005); *Dominick A. Ricci, M.D.*, 58 FR. 51104 (1993); *Bobby Watts, M.D.*, 53 FR. 11919 (1988). Therefore, Respondent is not entitled to maintain his DEA registration.

Order

Accordingly, pursuant to the authority vested in me by 21 U.S.C. 823 and 824, and 28 CFR 0.100(b) & 0.104, I hereby order that DEA Certificate of Registration, BY5532076, issued to Sheran Arden Yeates, M.D., be, and it hereby is revoked. I further order that any pending applications for renewal or modification of such registration be, and they hereby are, denied. This order is effective August 10, 2006.

reconsideration of a final order. *See Robert A. Leslie, M.D.*, 60 FR 14004, 14005 (1995). To allow Respondent the opportunity to refute the facts of which I am taking official notice, publication of this final order shall be withheld for a fifteen-day period, which shall begin on the date of service.

² Among the findings of the State Board were that “Respondent permitted his patients to return unused prescription medication to his offices,” and that “Respondent instructed his office staff to place any returned prescription medication in a storage chest” for “future use.” *Id.* at 2. The State Board also found that “Respondent and his office staff routinely administered ‘cocktail’ injections to patients without medical justification[.]” and that “[o]n occasion, * * * Respondent and his office staff denied patients their maintenance medication until the patients agreed to receive ‘cocktail’ injections.” *Id.*

Dated: June 13, 2006.

Deputy Administrator.

SUPPLEMENTARY INFORMATION:

Title of Collection: Evaluation of the Historically Black Colleges and Universities Undergraduate Program.

OMB Control No.: 3145-New.

Abstract: The National Science Foundation (NSF) funded a program, called Historically Black Colleges and Universities Undergraduate Program (HBCU-UP), designed to help institutions strengthen the quality of their undergraduate STEM programs. The Urban Institute is conducting an evaluation of the HBCU-UP program. Using a mixed-methods approach, UI researchers will conduct an evaluation over three years to study the effectiveness of the program. The evaluation will include both process and summative components. The process component will document how different models within the Program are being implemented, thus helping evaluators to link strategies to outcomes, identify crucial components of different models, and contribute to the construction of general theories to guide future initiatives to increase the diversity of the STEM workforce. The summative component of the evaluation will focus on the extent to which the Program has produced outcomes that meet stated goals for students, faculty and institutions. The process evaluation will rely mainly on qualitative data collected during case study site visits and interviews; the summative evaluation will rely primarily on data collected through a survey of graduates.

Respondents: Graduates of undergraduate programs to STEM at Historically Black Colleges and Universities awarded an HBCU-UP grant from NSF.

Estimated Number of Annual Respondents: 5,000 (total).

Burden on the Public: 1,250 hours.

Dated: July 6, 2006.
