<b>How many Fed VMOs:</b> _____	<b>How many State gov't:</b> _____		<b>How many other people &amp; specify:</b>	
<b>How many Fed AHTs:</b> _____	<b>How many Producers or employees:</b> _____			

## Instructions

Collect samples Sunday through Wednesday in designated week and ship within 24 hours of collection.

Samples are from **FRESH** fecal pats made by cows. DO NOT sample replacement heifers.

Number of samples to collect is based on cow herd size:

**Fewer than XX cows, collect up to 30 samples (i.e., if 23 cows, collect 23 samples)**

**XX cows to XX cows, collect 35 samples**

**XX cows to XX cows, collect 40 samples**

1. Freeze the ice packs at least 24 hours before collection.
2. Use a new tongue depressor for each sample.
3. Take samples from throughout the area where cows or cow/calf pairs spend most of the day.
4. For each sample, collect a golf-ball size sample from a **FRESH** fecal pat. Place each sample in a separate whirlpak bag, express air, twist down twice, and clean off.
5. Write the Farm ID and Kit Number on a bag.
6. Keep samples cool and, if necessary, replace ice packs so samples are shipped with frozen ice packs. **DO NOT** freeze samples. Place the **YELLOW** copy of the submission form in the shipping box. Send the original to your Coordinator.

**Be sure to complete the information at the top of the page.**

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it is identified by OMB Number 0579-NEW. The time required to complete this information collection is estimated to average 1.5 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collected.
