**INSTRUCTIONS FOR THE COMPLETION OF
PERFORMANCE PROGRESS REPORT
SF-PPR-D
HHS Administration for Children and Families
FYSB Abstinence Education Program
Table of Activity Results**

General Purpose of SF-PPR-D, Table of Activity Results

U.S. Code 42, Section 710 references the application of Section 706 of the same code to the abstinence education grant program for states. Section 706 requires block grant recipients to submit reports as directed by HHS.

ACF will use the information collected to collect comparative data required to account for the annual expenditure of \$50 million in Federal funds, assess the progress and impact of ACF's federally funded abstinence education programs against ACF's Strategic Plan goals, and provide feedback to assist State grantees.

The data collected also fulfill requirements of OMB for setting of performance targets and assessment and validation of accomplishments.

Section A—Unduplicated Count of Clients Served

Purpose of Section A

The purpose of Section A—Unduplicated Count of Clients Served, is to track and report the unduplicated number of clients served for each program year. Each client is counted only once.

General Instructions

Section A should be submitted as part of all required reports. Annual reports should provide cumulative data for 12 months.

Complete each cell in Section A for an unduplicated number of clients served in all programs funded by the abstinence education grant except for media campaigns.

In determining the age of a client, use the age of the client at the first point of contact during the program year. Since the purpose of the community-based abstinence education (CBAE) program grants is to provide services to youth ages 12-18, CBAE grantees should not provide any data in the rows for clients ages 19 through 29.

If a State program has served youth that are younger than 12 or during the report period, include that data in rows AE-A-120 (females) or AE-A-221 (males).

If you are helping young adults in making decisions related to abstinence, and the young adults happen to be young parents, record these clients under their ages. The row for tracking services to parents (AE-A-119 and AE-A-219) should be reserved for recording those efforts aimed at helping parents talk with their children about their children's sexual choices.

Use the following definitions when determining race:

- **Asian** - A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
- **Black or African American** - A person having origins in any of the black racial groups of Africa. Terms such as "Haitian" or "Negro" can be used in addition to "Black or African American."
- **Hispanic or Latino** - A person of Cuban, Mexican, Puerto Rican, Cuban, South or Central American, or other Spanish culture or origin, regardless of race. The term, "Spanish origin," can be used in addition to "Hispanic or Latino."

- **American Indian or Alaska Native** - A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.
- **Native Hawaiian or Other Pacific Islander** - A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
- **White** A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.
- **Other (not required by OMB)** - A person wishing to identify himself or herself as “other” rather than one of the demographic groups described above.

If your program is implementing a media campaign, report such activities, and the numbers served, in the narrative of your program progress report.

Section B—Hours of Service Received by Clients

Purpose of Section B

The purpose of Section B, Hours of Service Received by Clients, is to track and report the total number of service hours that clients have received during the report period.

For example, a grantee may provide 1,000 ninth grade students with a 20-hour curriculum program while also providing 5,000 other youth with a one-hour event. Section B allows the grantee to report these numbers in greater detail, rather than averaging the program hours together. Averaged together, the result would show that 6,000 youth received an average of 4 hours of service, which would not clearly represent the nature of the programs. A more detailed report of the example is captured in the sample table rows below.

Number of Hours Received	By 12-18 year olds	By 19-29 year olds
1	5,000	
20	1,000	
Total 12-18	6,000	

General Instructions

Indicate the number of clients, by age group, who received the total number of hours listed for each row. CBAE grantees should leave blank (not provide any data) in the columns for 19-29 year olds.

An hour is equivalent to 60 minutes, and all sessions should be counted only for the actual number of minutes that a youth is served. A session that lasts for 30 minutes should be counted as 30 minutes; 43 minutes should be counted as 43 minutes. The total number of minutes of service that a youth receives must be converted into hours and rounded to the nearest ¼ hour. For example, 343 minutes will equal 5.75 hours.

For clients that receive services from multiple programs, program staff must add together the time received together so that only one number of program hours received will be recorded for each client served. For example, if a student participated in 17 hours of a 20-hour curriculum program and also participated in a one-half hour event, the total number of program hours for that student would be 17.5.

For clients that received more than 50 program hours, report their hours in the report form narrative. Do not include any media campaign activities in Section B. Rather, report such activities, and the numbers served, in form SF-PPR (general performance progress report).

The total number of clients served in each of the two age group columns should be equal to the unduplicated count of clients served for those age groups in Section A, row AE-A-201.

Section C—Program Completion Data

Purpose of Section C

The purpose of Section C, Program Completion Data, is to track and report the number of all clients that complete the various types of program(s) offered.

General Instructions

In each row, choose and report on one type of program offered by the grantee during the program year. A grantee may have several programs such as separate programs for middle school and high school students, events, or training programs, etc., and each row should be devoted to one program type with a distinct number of program hours. For example, if a program offers two after-school abstinence curriculum programs with one totaling 12 hours and the second totaling 24 hours, these should be recorded on separate rows. However, if a grantee offers three after-school programs that all provide 15 hours of programming, the data for these should be added together and recorded in one row.

In the fourth column, list the total number of hours that are provided by each program type.

In the fifth or sixth column, list the number of clients that completed at least 75% of the program above the total number of clients served for each of the age ranges indicated. CBAE grantees should leave blank (not provide any data) in the column for 19-29 year olds.

The total number of clients served by all programs, if they were to be added together, may be greater than the unduplicated count of all clients, as reported in Section A, if clients participated in more than one program.

Grantees with sub-grantees may wish to have each sub-awardee fill out this form separately and then compile the data into one form. In these cases, grantees will likely need to use more than one page.

Section D—Communities Served

Purpose of Section D

The purpose of Section D, Communities Served, is to track and report geographical areas in which the grantee has provided services.

General Instructions

Record the geographical areas in which all programs were provided during the budget year by state, county, and city/town. Grantees need not report the communities in which the clients reside.

Optional Narrative

If needed, submit with SF-PPR-D a narrative that describes any elements related to sections A-D that need to be explained. For example, the narrative may describe:

- clients served through media activities;
- groups that have been combined under "Other" in section A; or
- hours of service received by clients outside the age ranges of 12-18 or 19-29.

Organize the narrative in the order of sections A through D, and use headings to clearly identify which section the narrative is describing.
