

AmeriCorps State and National Demographic Reporting Elements

This section contains a list of demographic indicators of interest to the Corporation and our stakeholders. Please note that you are not required to report on each indicator.

However, if your program includes these types of leveraged volunteers or target groups, include an estimate of their totals.

You are required to report total leveraged volunteers. Starting in program year 2007-2008 the total number of individuals that applied to be AmeriCorps members will be required. An estimate if available this year will help to establish a baseline.

To complete this section, enter how many people you have worked with during the reporting period in each category for which you have collected data. If you do not collect data on an indicator, enter a zero (0) in that field.
