GENERAL INSTRUCTIONS

Survey Scope – This survey collects expenditure data for nonfarm companies, organizations, and associations operating within the United States. Information for agricultural production operations should be excluded. However, companies performing agricultural services are included. **Information for churches, nonprofit organizations, and organizations that are government owned but privately operated should be included.**

Reporting Entity – Report for all **domestic** operations of your enterprise, including subsidiaries and divisions. For this report, the terms enterprise and company are used interchangeably. An enterprise is a business, service, or membership organization consisting of one or more establishments under common ownership or control. It includes all establishments of subsidiary companies, where there is more than 50 percent ownership, as well as establishments of firms which the enterprise has the power to direct or cause the direction of management and policies.

If another domestic company owns more than 50 percent of the voting stock of your company or has the power to direct or cause the direction of your management and policies, then please note this in “Remarks” section on the last page of the form. Holding companies should report for the entire corporation, including all subsidiaries under their ownership. If you are unable to consolidate records for the entire company or have any reporting questions, please call **1-800-528-3049**. This report form will be used by companies having activity in one or more industries; therefore, not all items will apply to all companies. For purposes of this survey, exclude data for Puerto Rico, the Virgin Islands, and U.S. Territories.

Survey Period – Report data for the calendar year 2007. If calendar year book figures are not available, reasonable estimates are acceptable. If you cannot provide reasonable estimates on a calendar basis, fiscal year data will be accepted. Indicate on page 10 of the ICT-1(L), page 8 of the ICT-1(M) form, or page 6 of the ICT-1(S) form the exact dates the data represent if they are not for the calendar year. If fiscal data are used and your fiscal period ends in January, February, or March, report for the fiscal year ending in 2008. Otherwise, report for the fiscal year ending in 2007.

Estimates Are Acceptable – The data requested on this report form may not correspond to your company’s accounting records. If you cannot answer a question from your company records, please provide carefully prepared estimates. If your company did not have any ICT expenditures for the 2007 reporting period, enter “0” in the appropriate cell(s).

Report dollar values rounded to thousands.

Example: If figure is \$179,125,628.00 report	\$Mil	\$Thou	\$Dol
	179	126

(a) If your enterprise merged with or acquired another domestic enterprise during the reporting period, include the domestic ICT expenditures made by the merged or acquired enterprise since the date of acquisition. Please furnish the date of the acquisition or merger and the name of the acquired enterprise in the "Remarks" section on the last page of the form.
