The Department of Homeland  
Security (DHS) Small Business  
Innovation Research (SBIR) program  
established under the Small Business  
Innovation Development Act of 1982  
(Pub. L. 97-219) is responsible for  
collecting information used by the DHS  
SBIR/Small Business Technology  
Transfer (STTR) Program Office to: 1.  
Identify members of the public who  
qualify for, and are interested in  
participating in, the DHS SBIR/STTR  
Program; 2. Facilitate SBIR/STTR  
outreach to the public; 3. Provide the  
DHS SBIR/STTR Program Office  
necessary and sufficient information to  
determine that proposals submitted by  
the public to the DHS SBIR/STTR  
Program meet criteria for consideration  
under the program.

Please note that the Forms Package  
includes nine forms for collecting  
proposal information from small  
businesses. As explained herein, these  
separate forms are intended to reduce  
burden and improve records  
management by (1) allowing offerors to  
submit identifying information only  
once and then to reference that  
previously submitted identifying  
information in the submittal of  
proposals, (2) eliminating the cost and  
delay associated with the submission of  
proposals via non-electronic means, (3)  
facilitating timely review of proposals,  
and (4) improving the accuracy of  
records management for proposals. The  
Department is committed to improving  
its SBIR processes and urges all  
interested parties to suggest how these  
materials can further reduce burden  
while seeking necessary information  
under the Act.

DHS is particularly interested in  
comments that:

(1) Evaluate whether the proposed  
collection of information is necessary  
for the proper performance of the  
functions of the agency, including  
whether the information will have  
practical utility;

(2) Evaluate the accuracy of the  
agency's estimate of the burden of the  
proposed collection of information,  
including the validity of the  
methodology and assumptions used;

(3) Suggest ways to enhance the  
quality, utility, and clarity of the  
information to be collected; and

(4) Suggest ways to minimize the  
burden of the collection of information  
on those who are to respond, including  
through the use of appropriate  
automated, electronic, mechanical, or  
other technological collection  
techniques or other forms of information  
technology, e.g., permitting electronic  
submissions of responses.
