

insulin regimen. These drivers report no other disqualifying conditions, including diabetes-related complications. Each meets the vision standard at 49 CFR 391.41(b)(10).

The qualifications and medical condition of each applicant were stated and discussed in detail in the May 16, 2007, **Federal Register** Notice (72 FR 27625). Therefore, they will not be repeated in this notice.

Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the diabetes standard in 49 CFR 391.41(b)(3) if the exemption is likely to achieve an equivalent or greater level of safety than would be achieved without the exemption. The exemption allows the applicants to operate CMVs in interstate commerce.

To evaluate the effect of these exemptions on safety, FMCSA considered medical reports about the applicants' ITDM and vision, and reviewed the treating endocrinologist's medical opinion related to the ability of the driver to safely operate a CMV while using insulin.

Consequently, FMCSA finds that exempting these applicants from the diabetes standard in 49 CFR 391.41(b)(3) is likely to achieve a level of safety equal to that existing without the exemption.

Conditions and Requirements

The terms and conditions of the exemption will be provided to the applicants in the exemption document and they include the following: (1) That each individual submit a quarterly monitoring checklist completed by the treating endocrinologist as well as an annual checklist with a comprehensive medical evaluation; (2) that each individual reports within 2 business days of occurrence, all episodes of severe hypoglycemia, significant complications, or inability to manage diabetes; also, any involvement in an accident or any other adverse event in a CMV or personal vehicle, whether or not they are related to an episode of hypoglycemia; (3) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (4) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file, or keep a copy in his/her driver's qualification file if he/she is self-employed. The driver must also have a copy of the certification when driving, for presentation to a duly authorized

Federal, State, or local enforcement official.

Discussion of Comments

FMCSA received one comment in this proceeding. The comment is considered and discussed below.

A letter of recommendation was written in favor of granting the Federal Diabetes Exemption to Mr. Richard M. Carey. It was written by his sister, Maureen Carey, who states that Mr. Carey makes his health a top priority and is very responsible in effectively managing his diabetes.

Conclusion

After considering the comment to the docket, and based upon its evaluation of the fifty-seven exemption applications, FMCSA exempts, Darrell L. Allen, Jeffery C. Badberg, Kevin W. Bender, Karry J. Benfiet, Ronnie T. Bledsoe, Ricky N. Blankenship, Kevin E. Blythe, Clayton J. Bragg, James A. Broderick, Clifford O. Bull, Richard M. Carey, Cary W. Chase, Robert L. Chestnut, Dino J. Coli, Jr., Larry E. Colson, Elijah N. Craft, Leonard Cunningham, LaVerne A. DeChausse, Jason E. Earlywine, Eddie L. Edwards, Leroy Finn, John E. Fitch, Steven L. Garland, William J. Weber, and Jeffrey A. Withers from the ITDM standard in 49 CFR 391.41(b)(3), subject to the conditions listed under "Conditions and Requirements" above.

In accordance with 49 U.S.C. 31136(e) and 31315 each exemption will be valid for two years unless revoked earlier by FMCSA. The exemption will be revoked if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315. If the exemption is still effective at the end of the 2-year period, the person may apply to FMCSA for a renewal under procedures in effect at that time.

Maintenance and Repair Reimbursement Pilot Program

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Notice of application deadline.

SUMMARY: The Maritime Administration is hereby giving notice that the closing date for filing applications to enroll in the Maintenance and Repair Reimbursement Pilot Program is August 1, 2007.

FOR FURTHER INFORMATION CONTACT: Jean E. McKeever, Associate Administrator for Business and Workforce Development, Maritime Administration, 1200 New Jersey Ave., SE., Washington,

SUPPLEMENTARY INFORMATION: Section 3517 of the National Defense Authorization Act for fiscal year 2007 (Pub. L. 109-163) requires a person who is awarded a Maritime Security Program ("MSP") agreement to also enter into an agreement with the Maritime Administration to perform maintenance and repair ("M&R") work in United States shipyards as a condition of the MSP award. The Maritime Administration's M&R regulations do not apply the M&R condition to contractors who have already been awarded an M&R agreement. Thus, the Maritime Administration's M&R regulations make the M&R obligation mandatory on new awardees, including transferees, of MSP agreements, and voluntary for existing MSP contractors.

The John Warner National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109-364) grants a priority, during times of insufficient appropriations, in allocation of MSP payments to MSP contractors that have entered into M&R agreements. The M&R regulations were published in the **Federal Register** on February 6, 2007 (72 FR 5342-01), but did not specify a time period for submitting applications. In order to administer the priority provisions of Public Law 109-364, we need to close the application period.

On June 28, 2005, the President, invoking the authority, *inter alia*, of the International Emergency Economic Powers Act (50 U.S.C. 1701-1706) ("IEEPA"), issued Executive Order 13382 (70 FR 38567, July 1, 2005) (the "Order"), effective at 12:01 a.m. eastern daylight time on June 29, 2005. In the Order, the President took additional steps with respect to the national emergency described and declared in Executive Order 12938 of November 14, 1994, regarding the proliferation of weapons of mass destruction and the means of delivering them.

Section 1 of the Order blocks, with certain exceptions, all property and interests in property that are in the United States, or that hereafter come within the United States or that are or hereafter come within the possession or control of United States persons, of: (1) The persons listed in an Annex to the Order; (2) any foreign person determined by the Secretary of State, in consultation with the Secretary of the Treasury, the Attorney General, and other relevant agencies, to have engaged, or attempted to engage, in activities or transactions that have materially contributed to, or pose a risk of materially contributing to, the proliferation of weapons of mass destruction or their means of delivery (including missiles capable of delivering such weapons), including any efforts to manufacture, acquire, possess, develop, transport, transfer or use such items, by any person or foreign country of proliferation concern; (3) any person determined by the Secretary of the Treasury, in consultation with the Secretary of State, the Attorney General, and other relevant agencies, to have provided, or attempted to provide, financial, material, technological or
