On the behalf of all supporters of wildlife, thank you for participating in the HIP migratory bird harvest survey last hunting season. The important information you provided helped enable us to estimate the total harvest of migratory birds in the U.S.

Because you have already made a valuable contribution, we are asking for your help again this coming season. We are asking selected hunters to send us one wing from each woodcock, band-tailed pigeon, and/or rail that they shoot next season. Volunteering to send us the wings from these birds that you bag will provide us with more crucial information.

Biologists will examine your specimens to determine the birds' species, age, and sex. This information is vital for helping us better manage our migratory bird resource. For example, the specimens that hunters contribute will allow us to estimate the number of young-of-the-year birds that were harvested, which tells us how successful the birds were during the nesting season.

If you will be able to send us wings from the birds that you bag, please provide the information requested below and return this letter in the postage-paid envelope. Please return it by July 15 so that we can send your postage-paid wing envelopes in time for the hunting season.

If you have any questions, please call us at 1-800-419-2965 between 7:00am – 4:00pm EST. Again, thank you for you help.

Sincerely,
Kenneth D. Richkus
Acting Chief, Branch of Harvest Surveys

Yes, I will be able to send you one wing from each woodcock, band-tailed pigeon, and/or rail I shoot next year.
