

Justification
Import/Export Declaration for List I and List II Chemicals
1117-0023

The Drug Enforcement Administration (DEA) information collection "Import/Export Declaration for List I and List II Chemicals" [1117-0023] contains two information collection instruments. One, the DEA- Form 486, is completed on an as-needed basis by persons wishing to import, export, or conduct international transactions involving these chemicals. The other is a quarterly report completed by certain persons for the importation of three specific List II chemicals.

When DEA renewed this collection, it inadvertently double-counted the burden associated with the quarterly report, counting it both in the quarterly instrument and the as-needed instrument.

This change request corrects that double-counting.
