<u>Evaluation Process – These are standard requirements that HUD will expect every program manager receiving a grant to do as part of their project management.</u>

- An evaluation process will be part of the on-going management of the program.
- Comparisons will be made between projected and actual numbers for both outputs and outcomes.
- Deviations from projected outputs and outcomes will be documented and explained.
- Analysis of data to determine the relationship of outputs to outcomes; what outputs produce which outcomes.

HUD Will Use The Following Questions To Evaluate Your Program

- 1. How many new Fair Housing clients were there?
- 2. How many persons attending workshops, counseling and classes by English and non-English speakers?
- 3. How many landlords and industry representatives attending Fair Housing activities?
- 4. How many complaints were filed?
- 5. How many complaints were resolved?
- 6. How many persons had their living or housing situation improved?
- 7. How many homeless persons found housing?
- 8. Was there a reduction in the number of foreclosures? If so, how many?

Carter-Richmond Methodology

The above Management Questions developed for your program are based on the Carter-Richmond Methodology 1. A description of the Carter-Richmond Methodology appears in the General Section of the NOFA.
