

Justification for PPO Form 368
Notice of Arrival

The Animal and Plant Health Inspection Service (APHIS),
Plant Protection and Quarantine (PPQ) is
Requesting Permission to Post this Previously Approved Form on the Web

The PPQ 368 has been OMB approved under information collection 0579-0049 for several years. However, APHIS/PPQ is now requesting permission to post the form to the APHIS website at www.aphis.usda.gov/library/forms. The form is used by a wide variety of importers, exporters, and brokers who are responsible for filling out the form, so having it easily accessible would be a great help.
