

## **JUSTIFICATION FOR CHANGE**

The Economic Development Administration is requesting a minor change to their information collection, OMB Control No. 0610-0101. The change will add a checkbox (**“Excellence in Preservation Led Strategies Enhancing Economic Development”**) on page seven of the brochure application for the award.

The number of applicants, the amount of information requested, and the burden hours would not change. The applicant still has the option to select only one award category. The addition of this new category will make the total selection eight categories.
