# **CARE Tool**

Master Document (Core and Supplemental Items)

General Information:
Please note that this
instrument uses the term
"2-day assessment period"
to refer to the first 2 days
of admission and the last
2 days prior-to-discharge
for look-back periods.

Post OMB Version 10/29/07

# Signatures of Persons who Completed a Portion of the Accompanying Assessment

I certify, to the best of my knowledge, the information in this assessment is

- collected in accordance with the guidelines provided by CMS for participation in this Post Acute Care Payment Reform Demonstration,
- an accurate and truthful reflection of assessment information for this patient,
- based on data collection occurring on the dates specified, and
- data-entered accurately.

I understand the importance of submitting only accurate and truthful data.

- This facility's participation in the Post Acute Care Payment Reform Demonstration is conditioned on the accuracy and truthfulness of the information provided.
- The information provided may be used as a basis for ensuring that the patient receives appropriate and quality care and for conveying information about the patient to a provider in a different setting at the time of transfer.

I am authorized to submit this information by this facility on its behalf.

[I agree] [I do not agree]

### **Clinicians:**

For this section, please provide a listing of medical diagnoses, comorbid diseases and complications, and procedures based on a review of the patient's clinical records available at the time of assessment. This information is intended to enhance continuity of care. For discharge only, these lists can be added to throughout the stay and will be specific to each setting.

### A. Primary and Other Diagnoses, Comorbidities, and Complications

Indicate the primary diagnosis and up to 14 other diagnoses being treated, managed, or monitored in this setting. Please include all diagnoses (e.g., depression, schizophrenia, dementia, protein calorie malnutrition).

### VI. Functional Status: Usual

A. Core Self Care: The core self care items should be completed on ALL patients.

Code the patient's most usual performance for the 2-day assessment period using the 6-point scale below.

#### CODING:

**Safety** and **Quality of Performance** – If helper assistance is required because patient's performance is unsafe or of poor quality, score according to amount of assistance provided.

Code for the most usual performance in the 2day assessment period.

Activities may be completed with or without assistive devices.

- **6. Independent** Patient completes the activity by him/herself with no assistance from a helper.
- **5. Setup or clean-up assistance** Helper SETS UP OR CLEANS UP; patient completes activity. Helper assists only prior to or following the activity.
- 4. Supervision or touching assistance -Helper provides VERBAL CUES or TOUCHING/ STEADYING assistance as patient completes activity. Assistance may be provided throughout the activity or intermittently.
- **3. Partial/moderate assistance** Helper does LESS THAN HALF the effort. Helper lifts, holds or supports trunk or limbs, but provides less than half the effort.
- Substantial/maximal assistance Helper does MORE THAN HALF the effort. Helper lifts or holds trunk or limbs and provides more than half the effort.
- Dependent Helper does ALL of the effort.
   Patient does none of the effort to complete the task.

#### If activity was not attempted code:

- M. Not attempted due to medical condition
- S. Not attempted due to safety concerns
- A. Task attempted but not completed
- N. Not applicable
- P. Patient Refused

	Code	suitable utensils to bring food to the mouth and swallow food once the meal is presented on a table/tray. Includes modified food consistency.
_	Enter Code	<b>A2.Tube feeding:</b> The ability to manage all equipment/supplies related to obtaining nutrition.
Boxes	Enter Code	<b>A3.Oral hygiene:</b> The ability to use suitable items to clean teeth. Dentures: The ability to remove and replace dentures from and to mouth, and manage equipment for soaking and rinsing.
Enter Code in Boxes	Enter	<b>A4.Toilet hygiene:</b> The ability to maintain perineal hygiene, adjust clothes before and after using toilet, commode, bedpan, urinal. If managing ostomy, include wiping opening but not managing equipment.
→ Ent	Enter	<b>A5.Upper body dressing:</b> The ability to put on and remove shirt or pajama top. Includes buttoning three buttons.
	Enter	<b>A6.Lower body dressing:</b> The ability to dress and undress below the waist, including fasteners. Does not include footwear.

**A1. Eating:** The ability to use

# VI. Functional Status (cont.)

B. Core Functional Mobility: The core functional mobility items should be completed on ALL patients.

## IX. Medical Coding

### **Coders:**

For this section, please provide a listing of principal diagnosis, comorbid diseases and complications, and procedures based on a review of the patient's clinical records at the time of discharge or at the time of a significant change in the patient's status affecting Medicare payment.

Medicare payment.						
A. Principal Diagnosis						
Indicate the <b>principal diagnosis for billing purposes</b> . <b>Indicate the ICD-9 CM code</b> . For <b>V-codes</b> , also indicate the medical diagnosis and associated ICD-9 CM code. Be as specific as possible.						
A1. ICD-9 CM code for Principal at Assessment	Diagnosis	A2. If Principal Diagnosis was a V-code, what was the ICD-9 CM code for the primary medical condition or injury being treated?				
A1a. Principal Diagnosis at Asses	ssment	A2a. If Principal Diagnosis was a V-code, what was the primary medical condition or injury being treated?				
<b>B.</b> Other Diagnoses, Comor	bidities, a	and Complications				
setting. Include all diagnoses (e.g., d	epression, sch	gnoses being treated, managed, or monitored in this hizophrenia, dementia, protein calorie malnutrition). If a for the medical diagnosis being treated.				
ICD-9 CM code		Diagnosis
