CARE Tool Master Document (Core and Supplemental Items)

<u>General Information</u>: Please note that this instrument uses the term "2-day assessment period" to refer to the first 2 days of admission and the last 2 days prior-to-discharge for look-back periods.

> Post OMB Version 10/29/07

Signatures of Persons who Completed a Portion of the Accompanying Assessment

I certify, to the best of my knowledge, the information in this assessment is

- collected in accordance with the guidelines provided by CMS for participation in this Post Acute Care Payment Reform Demonstration,
- an accurate and truthful reflection of assessment information for this patient,
- based on data collection occurring on the dates specified, and
- data-entered accurately.

I understand the importance of submitting only accurate and truthful data.

- This facility's participation in the Post Acute Care Payment Reform Demonstration is conditioned on the accuracy and truthfulness of the information provided.
- The information provided may be used as a basis for ensuring that the patient receives appropriate and quality care and for conveying information about the patient to a provider in a different setting at the time of transfer.

I am authorized to submit this information by this facility on its behalf.

Clinicians:

For this section, please provide a listing of medical diagnoses, comorbid diseases and complications, and procedures based on a review of the patient's clinical records available at the time of assessment. This information is intended to enhance continuity of care. For discharge only, these lists can be added to throughout the stay and will be specific to each setting.

A. Primary and Other Diagnoses, Comorbidities, and Complications

Indicate the primary diagnosis and up to 14 other diagnoses being treated, managed, or monitored in this setting. Please include all diagnoses (e.g., depression, schizophrenia, dementia, protein calorie malnutrition).

IX. Medical Coding

Coders:

For this section, please provide a listing of principal diagnosis, comorbid diseases and complications, and procedures based on a review of the patient's clinical records at the time of discharge or at the time of a significant change in the patient's status affecting Medicare payment.

A. Principal Diagnosis

Indicate the **principal diagnosis for billing purposes**. **Indicate the ICD-9 CM code**. For **V-codes**, also indicate the medical diagnosis and associated ICD-9 CM code. Be as specific as possible.

A1. ICD-9 CM code for Principal Diagnosis at Assessment	A2. If Principal Diagnosis was a V-code, what was the ICD-9 CM code for the primary medical condition or injury being treated?
A1a. Principal Diagnosis at Assessment	A2a. If Principal Diagnosis was a V-code, what was the primary medical condition or injury being treated?

B. Other Diagnoses, Comorbidities, and Complications

List up to 15 **ICD-9 CM codes** and associated diagnoses being treated, managed, or monitored in this setting. Include all diagnoses (e.g., depression, schizophrenia, dementia, protein calorie malnutrition). If a V-code is listed, also provide the **ICD-9 CM code** for the medical diagnosis being treated.
