

Appendix A

Template for Semi-Annual or Adjusted Requests for Debt Issuance Approval

The Federal Home Loan Banks - Office of Finance (FHLB-OF) shall use this Appendix A template for requesting Treasury approval of globally syndicated large and liquid bullet instruments that the FHLB-OF proposes to issue through the FHLB Global Debt Program (such instruments being referred to as "syndicated GDP debt") for the 6-month period specified. Treasury approval of syndicated GDP debt indicated in this Appendix A shall thereupon also constitute approval from Treasury for routine issuances, in that same 6-month period, of discount notes, callable and puttable notes, bullet and TAP issues, master notes, single index floating rate notes, and amortizing prepayment linked securities (APLS). Any single debt issuance that (1) is a "Conflicting Issuance" (as defined below), (2) is an issuance of an "Existing Debt Product" in an amount that exceeds the "Large Issuance Threshold," or (3) is an issuance of a "New Debt Product," requires additional case-by-case approval using the Appendix B template. All dollar figures inserted are to be in billions
