Oversight Board Compliance Survey
2008**

**OMB #1545-1349
SOI # _____**

All clearance requests should include explanations of the minimum criteria listed below and be submitted in outline form.

I. Introduction

Background/overview

The IRS Oversight Board was created by the IRS Restructuring and Reform Act of 1998 (RRA 98), which was enacted to improve the IRS so that it could better serve the public and meet the needs of taxpayers. The Oversight Board is a nine-member independent body charged to oversee the IRS in its administration, management, conduct, direction, and supervision of the execution and application of the internal revenue laws and to provide experience, independence, and stability to the IRS so that it may move forward in a cogent, focused direction. In this role, the Oversight Board conducts studies to help develop a taxpayer compliance strategy based on the needs and demands of taxpayers that would be consistent with the IRS' strategic objectives.

Objective of data collection

The IRS Oversight Board is conducting a survey with the objective of understanding what influences taxpayers' tax compliance, their opinions of IRS, and their customer service preferences.

II. Methodology

This study will be conducted as a Computer Assisted Telephone Interview (CATI) of a nationally representative base of randomly selected and screened general public respondents who are 18 years of age or older.

Sample design

The study will be conducted via a 15-minute (14 minutes for the questionnaire plus 30 seconds for the screening) telephone survey conducted among a sample of 1,000 respondents. The 15-minute survey will include a total of approximately 26 questions. It is assumed that the incidence of qualifying respondents will be 90% - that is 90% of those that are screened for the survey would be qualified to take the survey.

Data to be collected

- Public attitudes regarding tax compliance
- Deterrents to noncompliance
- Ensuring compliance among different taxpayer levels
- Importance of IRS-provided information
- Receptivity to IRS customer service offerings
- Satisfaction with interaction with IRS
- Attitudes toward IRS funding
- Demographics
 - Age
 - Income
 - Education
 - Ethnicity
 - Geography
 - Gender
 - Use of Paid Tax Preparer

How data will be collected and used

The data will be collected using a telephone survey. The data will be analyzed through cross-tabulations to help the IRS Oversight Board to further develop a taxpayer compliance strategy based on the needs and demands of taxpayers that would be consistent with the IRS' strategic objectives.

Data collection date

The survey would be conducted between August 1 and August 31, 2007, pending receipt of OMB clearance.

Who is conducting the research

GfK will conduct this research. Analysis will be conducted in New York City, NY.

Cost of study

The study will cost an estimated \$20,000.

Stipend

Not applicable.

Recruitment efforts

The survey will be completed via random digit dialing.

Location-Region/City and Facility

Data will be collected using Roper’s telephone centers located in the following cities:

- Rexburg, ID
- Costa Rica
- Cebu, Philippines

Dialing may occur across multiple centers but all calls will be conducted during nighttime hours, 5pm-9pm respondent time during weekdays and day-time hours 9am-5pm weekends.

Expected Response Rate
