The National Recreational Boating Survey

This survey is being conducted to find out about people's recreational boating experiences and to improve the effectiveness of boating safety programs. It is being administered by [contractor name] on behalf of the U. S. Coast Guard, in collaboration with the National Association of State Boating Law Administrators (NASBLA) and your state boating officials. By responding to this survey, you are playing an important role in helping the U.S. Coast Guard improve boating safety and the quality of boating experiences across the country.

- ◆ Using boat registration files, we have sampled one of your registered boats. When responding to questions referring to your "identified boat" please answer about the boat noted in the box below.
- ◆ This questionnaire is designed to be completed by the recreational boating participant with the most recent birthday. If the selected boating participant is a child under the age of 16, then the questionnaire should be completed with the assistance of an adult.
- ◆ Boat-specific questions (#11 through #22 and 25 through 44) are to be answered with the assistance of the owner of this registered boat or the person in the household most familiar with the sampled boat.

Your "identified boat": [description of boat]

If you no longer own this particular boat, please continue anyway. The questionnaire will address this situation.

Your responses to this survey will be kept completely confidential and will only be reported in combination with the responses of others. Your privacy will be protected to the maximum extent allowable by law, and your name will not be given to the U.S. Coast Guard or any other organizations.

Please record your answers with either a pen or pencil. When you are finished with the survey, please place it in the enclosed self-addressed, postage-paid envelope and return it to [contractor name] within two weeks of receipt. If you have any questions please contact [contractor contact person] at [telephone number] or [e-mail address].

Thank you very much for taking the time to complete this survey.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number.

The U.S. Coast Guard estimates that the average burden for this report is 20-25 minutes. You may submit any comments concerning the accuracy of this burden estimate or any suggestions for reducing the burden to: Commandant (G-3PCB-1), U.S. Coast Guard, Washington, DC 20593-0001.

***Registered Boats:** Most states require that boats with motors or engines be registered in the state where the owner resides or the boat is operated regardless of their length. Many states also require boats over a certain length to be registered even if they do not have a motor or engine. The size requirement varies from state-to-state. Some boats can be registered and also U.S. Coast Guard documented.

****U.S. Coast Guard Documented Boats:** Some vessels that measure at least five net tons and are wholly owned by a citizen of the U.S. can be documented. Most vessels more than 25 feet in length will measure five net tons or more. Vessel documentation is a national form of registration that provides conclusive evidence of nationality for international purposes. Many financial institutions require vessels which are eligible for documentation to be documented and to have preferred mortgages recorded against them.
