

**Supporting Statement for Collection or Recovery by VA for Medical Care or Services
Provided or Furnished to a Veteran for a Nonservice-Connected Disability
38 CFR 17.101 (a) (4)
2900-0606**

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary. Identify legal or administrative requirements that necessitate the collection of information.

Public Law 105-33 amended the statutory provision of 38 U.S.C. 1729 to authorize VA to bill “reasonable charges” instead of “reasonable cost” for medical care or services provided or furnished to a veteran:

(a) For a non-service connected disability for which the veteran is entitled to care (or the payment of expenses of care) under a health-plan contract;

(b) For a non-service connected disability incurred incident to the veteran’s employment and covered under a worker’s compensation law or plan that provides reimbursement or indemnification for such care and services; or

(c) For a non-service connected disability incurred as a result of a motor vehicle accident in a State that requires automobile accident reparations insurance.

2. Indicate how, by whom, and for what purposes the information is to be used; indicate actual use the agency has made of the information received from current collection.

Under the provisions of 38 CFR, Section 17.101(a)(4), entitled “Amount of Recovery or Collection - Third Party Liability”, a third-party payer that is liable for reimbursing VA for health care VA provided to veterans with non- service-connected conditions continues to have the option of paying either the billed charges as described in Section 17.101 or the amount the health plan demonstrates it would pay to providers other than entities of the United States for the same care or services in the same geographic area. If the amount submitted for payment is less than the amount billed, VA will accept the submission as payment, subject to verification at VA’s discretion. A VA employee having responsibility for collection of such charges may request that the third party payer submit evidence or information to substantiate the appropriateness of the payment amount (e.g., health plan policies, provider agreements, medical evidence, proof of payment to other providers demonstrating the amount paid for the same care and services VA provided). This information would be needed to determine whether the third-party payer has met the test of properly demonstrating its equivalent private sector provider payment amount for the same care or services and within the same geographic area as provided by VA.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also described any consideration of using information technology to reduce burden.

Supporting Statement for 2900-0606, Continued

The collection of information does not involve the use of automated, electronic, mechanical, or other technological collection techniques. Additionally, VA determined that automating this data collection is not economically feasible.

4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.

This information is not available elsewhere and there is no duplication.

5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden.

No small businesses or other small entities are impacted by this information collection.

6. Describe the consequences to Federal program or policy activities if the collection is not conducted or is conducted less frequently as well as any technical or legal obstacles to reducing burden.

If the collection were not conducted, VA would not be able to determine whether the third-party payer has met the test of properly demonstrating its equivalent private sector provider payment amount for the same care or services and within the same geographic area as provided by VA.

7. Explain any special circumstances that would cause an information collection to be conducted more often than quarterly or require respondents to prepare written responses to a collection of information in fewer than 30 days after receipt of it; submit more than an original and two copies of any document; retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years; in connection with a statistical survey that is not designed to produce valid and reliable results that can be generalized to the universe of study and require the use of a statistical data classification that has not been reviewed and approved by OMB.

The information collection is in accordance with 5 CFR 1320.6.

8. If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the sponsor's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the sponsor in responses to these comments. Specifically address comments received on cost and hour burden.

The notice of Proposed Information Collection Activity was published in the Federal Register on January 22, 2008, Volume 73, Number 14, Page 3805-3806. We received no comments in response to this notice.

Supporting Statement for 2900-0606, Continued

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

No payment or gift is provided to respondents.

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy.

Assurance of confidentiality is contained in Title 38, U.S.C., Sections 5701 and 7332. The records are maintained in the Privacy Act System of records identified as 24VA136, Patient Medical Records-VA as set forth in the 2003 Compilation of Privacy Act Issuances via online GPO access at http://www.access.gpo.gov/su_docs/aces/2003_pa.html

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private; include specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.

There are no questions of a sensitive nature.

12. Estimate of the hour burden of the collection of information:

- a. Number of respondents is estimated at 400 per year.
- b. Frequency of response is once per year.
- c. Estimated average burden per respondent is 2 hours.
- d. Annual burden is 800 hours.
- e. Estimated cost to respondents is \$12,000 (800 hours x \$15 per hour).

13. Provide an estimate of the total annual cost burden to respondents or recordkeepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14).

This submission does not involve any recordkeeping requirements.

14. Provide estimates of annual cost to the Federal Government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operation expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information.

The estimated annual cost to the Federal Government is \$717.40

Estimated annual cost to the Federal Government - \$71
 FY 2008 7.40

	<u>Salary</u>	<u>Responses</u>	<u>Equals</u>	<u>Minutes</u>	<u>÷ by 60</u>	<u>Total</u>
Admin						
Process	\$ 14.26	400	\$5,704	3	60	\$285.20
(2008 GS - 5 Step 5)

Super. Review	\$ 21.61	400	\$8,644	3	60	<u>\$432.20</u>
(2008 GS - 9 Step 5)						
Total						<u>\$ 717.40</u>

15. Explain the reason for any changes in Items 13 or 14 of the OMB 83-1.

We do not project any changes.

16. For collections of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.

There are no plans to publish the results of the information collected. The information collection will be used only to permit the disclosure of information from medical records.

17. If seeking approval to omit the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.

Not applicable, we do not seek approval to omit the expiration date.

18. Explain each exception to the certification statement identified in Item 19, "Certification for Paperwork Reduction Act Submissions," of OMB 83-1.

There are no exceptions to the certification statement.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

No statistical methods are used in this data collection.
