Participant entered into an agreement on \_\_\_\_\_ (mm/dd/yy) to participate in the *energy right* Program (Program) as made available by Distributor. Since then, improvements eligible for financing have been installed to Participant's satisfaction in accordance with the Agreement to Participate and the Program requirements.

To repay the financing received from Distributor, Participant hereby promises to pay to the order of Distributor the sum of \$ \_\_\_\_\_ with interest on the unpaid principal balance at the rate of \_\_\_\_\_ % per year until paid. This financing includes \$ \_\_\_\_\_ for installation of improvements under the Agreement to Participate and \$ \_\_\_\_\_ for payment on Participant's financing obligation under Participant's Repayment Agreement dated \_\_\_\_\_ (mm/dd/yy). Repayment shall be made in \_\_\_\_\_ consecutive monthly installments as shown in the repayment schedule in the Truth and Lending Disclosure. Each installment payment shall be applied first to the interest due, and the balance shall be applied to principal (Participant understands interest accrues on any unpaid balance for the actual time outstanding).

Interest begins to accrue 30 days prior to the date the first payment is due. Participant can avoid paying interest by paying the AMOUNT FINANCED (shown in Truth in Lending Disclosure) in full prior to the date interest begins to accrue.

Participant understands that the FINANCE CHARGE and the TOTAL OF PAYMENTS as shown in the Truth in Lending Disclosure are estimates based on Distributor's assumption that payments will be made as scheduled (on the dates agreed upon).

If Participant defaults in any of the above ways, all of Participant's payment obligations to Distributor under this Repayment Agreement will, at Distributor's option, immediately be due and payable without Distributor's giving any advance notice. **Notice to Cosigner**

You are being asked to guarantee this debt. Think carefully before you do. If the borrower (Participant) doesn't pay the debt, you will have to. Be sure you can afford to pay if you have to and that you want to accept this responsibility.

You may have to pay up to the full amount of the debt if the borrower does not pay. You may also have to pay late fees or collection costs, which increase this amount.

The creditor (Distributor) can collect this debt from you without first trying to collect from the borrower. The creditor can use the same collection methods against you that can be used against the borrower such as suing you or garnishing your wages. If this debt is ever in default, that fact may become a part of your credit record.

This notice is not the contract that makes you liable for the debt.
