

**INSTRUCTIONS TO ACCESS  
THE 2010 DECENNIAL CENSUS  
LOCAL UPDATE OF CENSUS ADDRESSES (LUCA) PROGRAM  
COMPUTER-BASED TRAINING (CBT)**

**What is an ActiveX Control?**

An ActiveX Control or Active Content is a Microsoft computer script that interacts with the Windows Operating System to perform a specific task on demand. Some ActiveX controls downloaded from the Web pose a security threat to your computer. However, the ActiveX control required for the LUCA CBT is provided directly by the Census Bureau and therefore, **it does not pose any risk.**

**How do I start the LUCA CBT?**

When you insert the CD into your computer:

1. If you do not have Internet access, the LUCA CBT will start automatically.
2. If you have Internet access, please follow these steps to launch the CBT in Internet Explorer:
  - Click the CD drive on Windows Explorer.
  - Double click AutorunPro. A window will prompt you to install the ActiveX control.
  - Uncheck the box that says, “In the future, do not show this message.”
  - Click **Yes** to allow the ActiveX Control to run on your computer and start the LUCA CBT.

**Contact the LUCA Help Desk at 1-866-919-5822 if you need assistance.**
