Where state, county, and/or MCD boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries. Where American Indian reservation and American Indian tribal subdivision boundaries coincide, the map shows only the American Indian reservation boundaries.

¹ Incorporated place name color correlates to the incorporated place fill color.

² A * following a block number indicates that the block number is repeated elsewhere in the block.

³ A pink dashed line indicates a boundary reshaped during coordinate enhancement.

⁴ Address range break values represent the last address stored in the MAF/TIGER database for each street that crosses the boundary of your jurisdiction. For some street segments, the MAF/TIGER database contains information address range situations. When this occurs, the map will show the address range break with a plus (+) sign.
