

Bureau of Land Management, Interior

§4110.2-1

grazing use on the public lands an applicant must own or control land or water base property, and must be:

(1) A citizen of the United States or have properly filed a valid declaration of intention to become a citizen or a valid petition for naturalization; or

(2) A group or association authorized to conduct business in the State in which the grazing use is sought, all members of which are qualified under paragraph (a) of this section; or

(3) A corporation authorized to conduct business in the State in which the grazing use is sought.

(b) Applicants for the renewal or issuance of new permits and leases and any affiliates must be determined by the authorized officer to have a satisfactory record of performance.

(1) *Renewal of permit or lease.* (i) The applicant for renewal of a grazing permit or lease, and any affiliate, shall be deemed to have a satisfactory record of performance if the authorized officer determines the applicant and affiliates to be in substantial compliance with the terms and conditions of the existing Federal grazing permit or lease for which renewal is sought, and with the rules and regulations applicable to the permit or lease.

(ii) The authorized officer may take into consideration circumstances beyond the control of the applicant or affiliate in determining whether the applicant and affiliates are in substantial compliance with permit or lease terms and conditions and applicable rules and regulations.

(2) *New permit or lease.* Applicants for new permits or leases, and any affiliates, shall be deemed not to have a record of satisfactory performance when—

(i) The applicant or affiliate has had any Federal grazing permit or lease cancelled for violation of the permit or lease within the 36 calendar months immediately preceding the date of application; or

(ii) The applicant or affiliate has had any State grazing permit or lease, for lands within the grazing allotment for which a Federal permit or lease is sought, cancelled for violation of the permit or lease within the 36 calendar months immediately preceding the date of application; or

(iii) The applicant or affiliate is barred from holding a Federal grazing permit or lease by order of a court of competent jurisdiction.

(c) In determining whether affiliation exists, the authorized officer shall consider all appropriate factors, including, but not limited to, common ownership, common management, identity of interests among family members, and contractual relationships.

(d) Applicants shall submit an application and any other relevant information requested by the authorized officer in order to determine that all qualifications have been met.

§4110.1-1 Acquired lands.

Where lands have been acquired by the Bureau of Land Management through purchase, exchange, Act of Congress or Executive Order, and an agreement or the terms of the act or Executive Order provide that the Bureau of Land Management shall honor existing grazing permits or leases, such permits or leases are governed by the terms and conditions in effect at the time of acquisition by the Bureau of Land Management, and are not subject to the requirements of §4110.1.

§4110.2 Grazing preference.

§4110.2-1 Base property.

(a) The authorized officer shall find land or water owned or controlled by an applicant to be base property (see §4100.0-5) if:

(1) It is capable of serving as a base of operation for livestock use of public lands within a grazing district; or

(2) It is contiguous land, or, when no applicant owns or controls contiguous land, noncontiguous land that is capable of being used in conjunction with a livestock operation which would utilize public lands outside a grazing district.

(b) After appropriate consultation, cooperation, and coordination, the authorized officer shall specify the length of time for which land base property shall be capable of supporting authorized livestock during the year, relative

§4110.2-2

to the multiple use management objective of the public lands.

(c) An applicant shall provide a legal description, or plat, of the base property and shall certify to the authorized officer that this base property meets the requirements under paragraphs (a) and (b) of this section. A permittee's or lessee's interest in water previously recognized as base property on public land shall be deemed sufficient in meeting the requirement that the applicant control base property. Where such waters become unusable and are replaced by newly constructed or reconstructed water developments that are the subject of a range improvement permit or cooperative range improvement agreement, the permittee's or lessee's interest in the replacement water shall be deemed sufficient in meeting the requirement that the applicant control base property.

(d) If a permittee or lessee loses ownership or control of all or part of his/her base property, the permit or lease, to the extent it was based upon such lost property, shall terminate immediately without further notice from the authorized officer. However, if, prior to losing ownership or control of the base property, the permittee or lessee requests, in writing, that the permit or lease be extended to the end of the grazing season or grazing year, the termination date may be extended as determined by the authorized officer after consultation with the new owner. When a permit or lease terminates because of a loss of ownership or control of a base property, the grazing preference shall remain with the base property and be available through application and transfer procedures at 43 CFR 4110.2-3, to the new owner or person in control of that base property.

(e) Applicants who own or control base property contiguous to or cornering upon public land outside a grazing district where such public land consists of an isolated or disconnected tract embracing 760 acres or less shall, for a period of 90 days after the tract has been offered for lease, have a preference right to lease the whole tract.

§4110.2-2 Specifying permitted use.

(a) Permitted use is granted to holders of grazing preference and shall be specified in all grazing permits and leases. Permitted use shall encompass all authorized use including livestock use, any suspended use, and conservation use, except for permits and leases for designated ephemeral rangelands where livestock use is authorized based upon forage availability, or designated annual rangelands. Permitted livestock use shall be based upon the amount of forage available for livestock grazing as established in the land use plan, activity plan, or decision of the authorized officer under §4110.3-3, except, in the case of designated ephemeral or annual rangelands, a land use plan or activity plan may alternatively prescribe vegetation standards to be met in the use of such rangelands.

(b) The permitted use specified shall attach to the base property supporting the grazing permit or grazing lease.

(c) The animal unit months of permitted use attached to:

(1) The acreage of land base property on a pro rata basis, or

(2) Water base property on the basis of livestock forage production within the service area of the water.

§4110.2-3 Transfer of grazing preference.

(a) Transfers of grazing preference in whole or in part are subject to the following requirements:

(1) The transferee shall meet all qualifications and requirements of §§4110.1, 4110.2-1, and 4110.2-2.

(2) The transfer applications under paragraphs (b) and (c) of this section shall evidence assignment of interest and obligation in range improvements authorized on public lands under §4120.3 and maintained in conjunction with the transferred preference (see §4120.3-5). The terms and conditions of the cooperative range improvement agreements and range improvement permits are binding on the transferee.

(3) The transferee shall accept the terms and conditions of the terminating grazing permit or lease (see
