# **Pretest Advance Data Collection Form**

Questions mailed to facility prior to site visit

This form contains some of the questions that will be asked in our scheduled interview. We are mailing these to you in advance because they may require you to check reports or other sources of information. Having answers to these questions in advance of our visit will reduce the time we need to spend talking with you during the interview process.

Just a reminder, the NSRCF is a voluntary survey. Any identifiable information will be held confidential and will be used only by NCHS staff, contractors or agents, only when necessary and with strict controls, and will not be disclosed to anyone else without the consent of your facility. By law, every employee as well as every agent has taken an oath and is subject to a jail term of up to five years, a fine of up to \$250,000, or both if he or she willfully discloses ANY identifiable information about you.

The survey is about residential care. For this study, residential care is defined as:

"Residential care facilities are places that are licensed, registered, listed, certified, or otherwise regulated by the state and that provide room and board with at least two meals a day, around-the-clock on-site supervision, and help with personal care such as bathing and dressing or health related services such as medication management. These facilities serve an adult population. Facilities licensed to serve the mentally ill or the MR/DD populations exclusively are excluded."

If your facility is part of a campus that includes other types of care, please obtain answers only for the residential care portion of the facility and have them ready on the day of the site visit.
