

The Orange County Vanguard Center invites you to participate in our study of local community needs in preparation for the National Children's Study! We are interested in learning about community needs that will impact how we conduct the National Children's Study in Orange County.

You will receive \$35 for your participation.

You are eligible to participate if:

- 1. You are a parent or prospective parent
- 2. You live in Orange County

What will this study involve?

- 1. You will attend a focus group with up to 12 other parents or prospective parents for about 1.5 hours.
- 2. We will ask the group a series of questions related to concerns in your community and potential community responses to being invited to participate in the National Children's Study.
- 3. We will use a digital recorder to record the focus group discussions so that we can later transcribe them and use the group's feedback to help us in our planning for the National Children's Study.
- 4. You will be asked to complete a two-page anonymous questionnaire that will ask about your family's income, race/ethnicity, education, and religion.

Contact Ofelia at 949-824-4672 if you have any questions or want to participate in a focus group.

Public reporting burden for this collection of information is estimated to average 1 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0590). Do not return the completed form to this address.
