

**Northeastern Rural
Transportation Issues Survey
February 2008**

Introduction

Hello! Thank you for taking the time to participate in this New England Transportation Institute research study.

This survey asks questions about:

- the features that led you to choose your current home location, and considerations about the next home you might choose;
- the types of transportation you and your family currently use, and
- your feelings about what kind of mobility you have now and will have over the coming years.

Your answers and opinions will be of great value in understanding needs of households like yours and in planning improvements that address those needs. The results of this survey will be shared with both university researchers and managers of transportation agencies in the Northeastern States. The goal is to help policy makers to better understand the transportation needs of people in the Northeastern states. This survey is being conducted by an independent market research firm. Your answers will be kept strictly confidential and will NOT be associated with you in any way.

SECTION 6: MOVING TO A LOCATION WITH MORE MOBILITY

We are interested in your thoughts and opinions about moving to (or staying in) a particular type of neighborhood. This type of neighborhood is in a rural state. It might be a neighborhood in a small town, or a neighborhood in a city like Burlington VT, Manchester NH, or Portland ME. . For the purposes of this survey, we will call this type of neighborhood a “Town Center.” The “Town Center” has

- good sidewalks or walking paths;
- a mix of housing types including apartments and single family homes;
- shopping for basic needs;
- a place to get something to eat;
- access to community activities; and
- some form of bus service available.
- And it is as safe as where you live today.

Please answer each of the following questions by selecting the answer that best describes your opinion. Some of the questions may appear to be similar, but they do address somewhat different issues. Please read each question carefully.
