

Participants Wanted for Research Study

The National Center for Health Statistics is looking for adults aged 18 and over to help us test survey questions about work and education. We are interested in talking to a range of people, including those who are working full-time, part-time, self-employed, working (but not for pay), unemployed or looking for work, in school or an apprentice. The interview will be no longer than 60 minutes and participants will receive \$40.
