ENCLOSE2. Thank you for your time. Based on our conversation I need to ask {{(READ NAMES BELOW) and} you} a few more questions. This should only take about 5 minutes.

The National Children's Study is asking women questions to get information about pregnancy and to find out who is eligible to be in the Study. If you are not in one of the groups needed for the Study at this time, we may use the answers you give us, and we may call you back at a later date to see if anything has changed.

{Some people may consider questions about pregnancy to be personal, so we will give you choices on how you would like to listen to the questions. You can listen to the questions privately using headphones, or you can listen without headphones, or I can read the questions to you. You will enter your answers directly into the computer without telling me your answers. The computer will determine if you are eligible for the Study.

It would be best if you could sit down in a chair or at a table while answering these questions. Please let me know where a comfortable spot would be to get you set up.}
