## **EVS Federal Privacy Act Statement Third-Party Submitters**

The information on this page and your signature on the Federal privacy act statement serve as a formal agreement between your company and SSA. The agreement will govern the verification of employee SSNs for those employers who have executed wage reporting contracts with you. Under this agreement, the contracts between your organization and the employers must be available for inspection in the event that SSA should need to audit your records. EVS promotional material must also be available for review.

You can use a fee-based approach when offering EVS to your clients. However, caution should be taken. SSA offers services, like EVS, free of charge. Some companies in the private sector offer those same services for a fee and develop misleading brochures and advertisements. To discourage the use of misleading mailings about Social Security and Medicare, Congress enacted specific prohibitions in Section 312 of the Social Security Independence and Program Improvements Act of 1994 that broadened the existing deterrents. The prohibitions are codified at Title 42 of the U.S. Code, Section 1320b-10. You should ensure that you are aware of these legal provisions and conform to their requirements.

## In a snapshot, you should:

- § Be cautious <u>not</u> to suggest to your clients that this service is only available through you;
- § Advise all customers that this service is available at no cost from SSA and that this service is not a unique or exclusive arrangement between SSA and your company; and
- § Be sure not to give any impression when describing your EVS service to your clients that your company has an arrangement that allows direct access to SSA databases, program software, etc.
