## Outline for Otologic Evaluation

#### **U.S. Department of Labor**

Employment Standards Administration
Office of Workers' Compensation Programs
Division of Federal Employees' Compensation

OMB No. 1215-0103 Expires: 10-31-08

	Lxpires. 10-31-00
NAME:	
FILE NUMBER:	
I. HISTORY:	
(A) Our adjudication and possible awards are based solely on the fact of causality of all or a portion from exposure related to Federal Civilian employment. The only history of noise exposure on which legitimately adjudicated is that defined by the Statement of Accepted Facts. If there is any variance if given by the patient and that contained in the Statement of Accepted Facts, it should be carefully contained upon, but the opinion you render must be based solely on the Statement of Accepted Facts.	this case can be in the history as nsidered and
IS THERE ANY SIGNIFICANT VARIATION FROM THE STATEMENT OF ACCEPTED FACTS?	
(B) Please comment on this patient's hearing at the beginning of his/her significant noise exposure in employment, if audiometric data is available.	n Federal Civilian
(C) Compare, if possible, the present audiometric findings to those at the beginning of exposure. Do show a sensorineural loss that is in excess of what would be normally prediated on the basis of president of the basis of the	
(D) Was the workplace exposure, as described in the material provided, sufficient as to intensity and caused the loss in question?	l duration to have
(E) Please provide all other relevant history facts, (such as other noise exposure) emotional disorder (such as diabetes) local infections, ototoxic drug usage, surgery, etc. as they relate to this individual's sensorineural or conductive.	
Public Burden Statement (pl 99-500) Public reporting burden for this collection of information is estimated to vary from 15 t	o 45 minutes per respons

Public Burden Statement (pl 99-500) Public reporting burden for this collection of information is estimated to vary from 15 to 45 minutes per response with an average of 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Information Management, Department of Labor, Room N-1301, 200 Constitution Avenue, NW, Washington, DC 20210; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

**Privacy Act** The authority for requesting the following information is 5 U.S.C. 8101 et seq. The information will be used to determine entitlement to benefits. Furnishing the requested information is required to obtain or retain a benefit. Information collected will be handled and stored in compliance with the Freedom of Information Act, the Privacy Act of 1974, as amended (5 U.S.C. 552a). Failure to furnish the requested information may delay the processing of the claim or the payment of benefits, or may result in an unfavorable decision or reduced level of benefits. Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number.

### II. PHYSICAL EXAM

Please make this as extensive as necessary in line with any findings bearing on this individual's hearing loss. If only a minimal note is required, please include at least the following:
Describe the canals and drums.
Drum Motility:
Result of Basic fork tests:
Is there indication of any medical condition such as an acoustic neuroma or meniere's disease? Please explain.
Other:
III. OPINION
DIAGNOSIS:
If sensorineural or mixed, complete the following:
The sensorineural hearing loss seen is, in part or all, in my opinion
DUE NOT DUE  to noise exposure encountered in this claimant's Federal civilian employment.
Medical rationale supporting the above position:
Recommendations:
Signature of Physician

# IV. VERIFICATION OF AUDIOMETRIC TESTING Audiologist's Name \_\_\_\_\_ AUDIOGRAM IS ONLY ACCEPTABLE FOR USE IF AUDIOLOGIST IS AHSA CERTIFIED OR HAS A STATE LICENSE -REFER FOR TESTING IF OFFICE AUDIOLOGIST DOES NOT MEET THIS CRITERIA. ASHA Cert. I.D. \_\_\_\_\_ State License I.D. \_\_\_\_\_ Audiometer: Manufacturer \_\_\_\_\_ Model \_\_\_\_\_ Serial No. \_\_\_\_\_ Type (manual, automatic, microprocessor) CALIBRATION (BN. NO. 82-18 requires annual calibration to ANSI 1969 Standards) Date Calibrated: Month \_\_\_\_\_ Day \_\_\_\_ Year \_\_\_\_\_ Year \_\_\_\_ The audiometric test results are valid and representative of this employee's hearing sensitivity. Yes No If you have reservations concerning the audiometric test findings, please state what additional evaluations or tests you would suggest. BOTH SIGNATURES ARE REQUIRED. IF THE OPINIONS VARY, PLEASE ATTACH A SIGNED SHEET WITH EXPLICATIVE RATIONALE. Signature \_\_\_\_\_ Audiologist Signature \_\_\_\_\_ Physician Please note the following points which are commonly missed and without which adjudication cannot be completed. (1) Please include your complete audiograms with air conduction thresholds between 500 and 8000 Hz. and bone conduction thresholds between 500 and 4000 Hz. Please include impedance audiometry. (2) Be sure the audiologist is state licensed, or certified in audiology by the American Speech Language Hearing Association. (3) Be sure all opinions are completed and signed by the appropriate individuals.

#### V. AUDIOMETRIC TEST RESULTS:

TO ELIMINATE THE POSSIBILITY OF TEMPORARY THRESHOLD SHIFT, THE PATIENT SHOULD NOT BE TESTED UNLESS FREE OF SIGNFICIANT NOISE EXPOSURE FOR AT LEAST 16 HOURS - OTHERWISE RESCHEDULE. PATIENT FREE FROM NOISE EXPOSURE FOR \_\_\_\_\_\_ HOURS PRIOR TO TESTING.

		se also include your comprom 500 through 4000 Hz					
Is a signific	cant air-bone gap	present?					
	Right - Yes ()	No ()		Left - Yes ()	No ()		
Right Ear				Left Ear			
		AIR	BONE	AIF	₹	BONE	
500 Hz		_ dB	dB	di	3	dB
